The Chabot College Fire Technology Program offers training opportunities for entry-level and employed fire service professionals, including a two-year sequence of Fire Service, Physical Education, and Emergency Medical Technician courses, with a State Fire Marshal Certified Regional Academy. Our mission is to provide an education and training environment that fulfills the diverse needs found within the professions involved in the fire service. This environment promotes the opportunity for intellectual, social, and occupational growth in three major areas: 1) A comprehensive pre-employment curriculum leading toward an associate degree and/or transfer to a four-year institution; 2) Regional fire academy program for state-mandated certificate programs; and, 3) In-service training programs that provide professional course offerings reflecting the current needs of the fire service.
