

Chabot College Student Satisfaction Survey: Fall 2017 Highlights

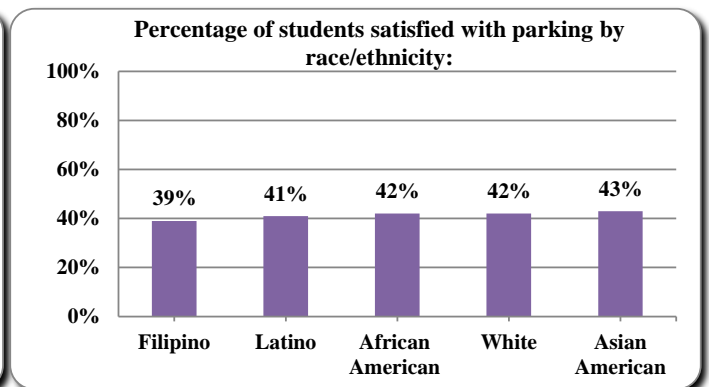

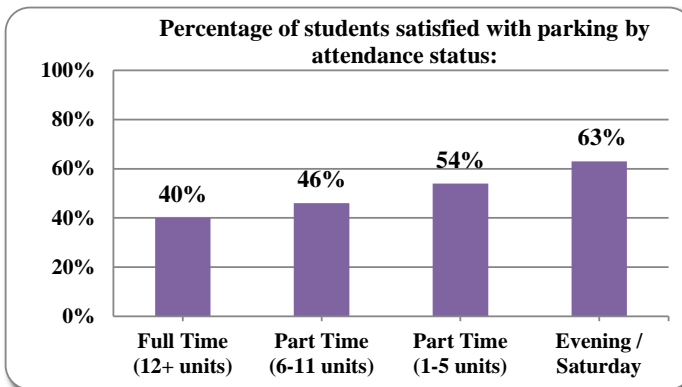

Overall Satisfaction with College Facilities

Many Chabot students are satisfied with the vast majority of college facilities. The Library Building received a satisfaction rate of 83%, the highest satisfaction rate among all of the facilities. However, there are a few facilities that have received a low satisfaction rate. Difficulty with finding parking seems to be the largest issue for students, with only 43% of the students being satisfied with it. This is even more troubling considering the fact that over three-fourths of the students drive to Chabot. Additionally, students are not very satisfied with the cafeteria and building 2100, with both facilities receiving a satisfaction rate of 59%. The Student Satisfaction Survey was conducted in October 2017 in a representative sample of 77 course sections. Surveys were completed by 1,702 students (59% full-time; 41% part-time). Responses were all anonymous.
