# Chabot Strategic Plan Goal

- Most students take longer than 3 years to complete their educational goal
- Completion depends on ed goal group
- Fall 14 cohort higher than F13 in some groups

    - Small increases
    - FT Career Builder increasing most
    - Increases by ethnic groups uneven
- **First Year Math Milestones**
  - **Succeeding in Any Math**
    - Most ed goal groups up a bit
    - Laser Basic Skills Math progress down for Latinos & African Americans

# So in conclusion....

## Will we increase the number of students who reach their goal?

---

- Making some progress on milestones and completion
- Most dramatic milestone gains have slowed
- About average for our peer group.
- Equity differences still present
- Most students are NOT Laser College,
  - but will be put in college level by 2019.
- Will this raise our completion rates and numbers, or is there more we can do?
