Subject Headings

CIVIL LIBERTIES

Use: [CIVIL RIGHTS](#)

Sometimes instead of searching by keywords, you may have better luck finding materials by consulting the Library of Congress Subject Headings (LCSH) and discovering key subject headings to find materials faster. For example, articles, books, and web sites on Civil Liberties will usually be indexed under "Civil Rights." To browse such headings, they are in the five thick red volumes on the reference shelves, on the left side of the reference desk (Power plants is listed twice as some headings include the phrase with a hyphen, while others do not)
