Subject Headings

CIVIL LIBERTIES

Use: [CIVIL RIGHTS](#)

Sometimes instead of searching by keywords, you may have better luck finding materials by consulting the Library of Congress Subject Headings (LCSH). This is important because you can sometimes get better search results. For example, articles, books, and web sites on Civil Liberties will usually be indexed under "Civil Rights." To browse such headings, they are in the five thick red volumes sitting on top of the first reference shelf on the left. **In general, books related to France and its history begin with the call number DC.** [] listed below is for the number of the Republic: (first, second, third, etc.)
