

## California Dreams and Realities: Library of Congress Subject Headings (LCSH)

This is a more thorough list of subject headings that is on [your class handout](#), though even this list is hardly complete. Please remember to look at Subject Headings in your retrieved results, including what you will find on the LEFT side of EbscoHost. The five volumes of the Library of Congress Subject Headings are on the first reference shelf, to the left of the Reference Desk. Also, be sure to look at the index of the back of the book. While they are not the same, exact terms of the LCSH, they can still give you additional terms you can enter into the Library Catalog or database.
