Notation: The above represents many California Community Colleges and four year schools, not all of them however. If you need to see a listing for a California school that is not listed above, make an appointment with a General Counselor for your initial discussion of course equivalencies. You will need to have a Chabot application on file to make an appointment. Please note that equivalency charts are only one tool in determining course comparability. Chabot discipline faculty will have the responsibility to determine course comparability should research be required.

Chabot will accept courses from U.S. Regionally Accredited Colleges/Universities as long as:

Human ANATOMY 4-5 sem units with a Lab, Human PHYSIOLOGY 4-5 sem units with a Lab, Microbiology 4-5 sem units with a Lab.

Discipline faculty will be asked to review courses for comparability with Chabot courses if needed. Courses with only on-line labs are not accepted.

The English Composition class has to be the degree granting English Composition class; **Sociology** has to be "Introduction to Sociology"; **Psychology** has to be "Intro/General Psychology"; and the **Communication classes** have to be "Public Speaking" or "Interpersonal Communication" (taught in the Speech/Communication department, not a Business Communication class) . No substitutions or waivers will be considered for the above courses.

Courses completed at International Universities will need to be evaluated by an Independent Transcript Evaluation Service and be deem equivalent to Chabot courses in order to be considered.
