

Randy Beach
Southwestern College

Current role is “Institutional Program Review and Outcomes Coordinator.” I coordinate all program review activities, student learning outcomes assessment, and administrative unit outcomes assessment for the district.

I have been full-time ENGL faculty since 2004. During this time I’ve taught Education courses and worked as a CTE program director for a teacher education preparation program; served three years as department chair; served two years as curriculum chair; and served two years as the presiding chair of our council of department chairs. I served two years as Academic Senate President during which time I chaired the Academic Technology Committee and co-chaired the district Shared Consultation Council (our shared governance body), Budget Committee, Technology Committee, Facilities Committee, Human Resources Committee, and Strategic Planning Committee. I currently co-chair the Institutional Program Review Committee and the Student Outcomes and Achievement Review Committee, which reviews SLO data, Student Success Scorecard Data, and Institution Set Standards data. I have been active in the Academic Senate for California Community Colleges and was recently elected to statewide executive office. I served on the Accreditation and Assessment Committee in 2014-2015 and will be the committee chair for this academic year.

I have not served on an External Evaluation Team. I have been a member of our Accreditation Oversight Committee (AOC) since 2010. I chaired a committee in 2010-2011 to address recommendations for Standard IIIA (Professional Development) and have served on two writing teams. As a member of the AOC, and a member of the AOC Writing Team, I’ve written parts of every Standard and was the lead on gathering and preparing evidence for our most recent self-evaluation report.
