

Donna McGill-Cameron
Woodland Community College

Full-time Professor of Economics, Business Computer Applications, WCC
Flex/Staff Development Coordinator for WCC (20% reassigned time)
WCC Academic Senate, CTE Representative

Summary of professional experience: (Include academic disciplines, career and technical education experiences, other institutional experience, professional service, experience with distance/correspondence education (DE/CE) quality and integrity, student complaints, assessment of student learning outcomes, institutional research on achievement and learning, institutional planning and budgeting, policy on transfer/award of credit, financial aid, etc.)

Flex/Staff Development Coordinator for Woodland Community College.
Designed, implemented, and taught classes in Economics, Computer Applications, and Information Technology in individualized, traditional, and online settings. I have twenty years of experience developing, designing, and teaching online courses, utilizing WebCT, Blackboard and Canvas platforms. I am also currently serving on WCC Distance Education Committee.

Curriculum experience includes writing and reviewing course outlines utilizing Curricunet, writing and updating Program Reviews, developing and applying Student Learning Outcomes, including assessment, utilizing TracDat. I also serve as the CTE Representative on the WCC Curriculum Committee.

External Evaluation Team experience/institutional self-evaluation experience:
Possess wide-ranging experience serving on Accreditation Standard Committees at both Yuba and Woodland Community Colleges. For the academic year 2011-12, served on an Evaluation Team for ACCJC (Reedley College) and 2014 (West Valley College). I have been heavily involved with writing Standard III-A5 (Professional Development) of the past two self-studies that my college submitted to ACCJC.
