

Jeanie Nishime
El Camino College

VP for Student and Community Advancement, which includes oversight of all student services programs except for DSPS, grants, research and planning, Foundation and scholarships, economic development, community and contract education programs. I also serve as ALO for the college.

I began my career as a classified employee in the EOPS office then served as an EOPS and general counselor. I served as the Dean of Counseling at two community colleges before assuming the position of Vice President. In my current position, I have major responsibility for planning and accreditation. I am an elected board member of the El Segundo Unified School Dist. and currently serve as the president. I also serve on the ACCCA board as the immediate past president. In that capacity, I am the ACCCA representative to the Chancellor's Consultation Council.

As the ALO, I oversaw the self-evaluation process for El Camino College's 2014 comprehensive team visit. I have served on three previous accreditation teams.
