MEMORANDUM

TO: Dr. Carlson, President, Chabot College
FROM: Rajinder S. Samra, Research Analyst, Institutional Research
DATE: August 10, 2007
SUBJECT: Research Request Regarding Acquisition of the San Leandro Facility

I am happy to provide the information that is related to the acquisition of the San Leandro facility. This request addresses four areas: district growth potential, assessments of educational and facility needs, official projections of future enrollments at the San Leandro facility, and assessment of needs and preferences. I’ve included a brief summary of the findings below. Please see the attached charts and tables for more details.

1) District Growth Potential

Our district is projected to grow by 34 percent between Fall 2007 and Fall 2015. It appears that most of the growth will occur at Las Positas College. Please pages 1 and 2.

2) Assessments of Educational and Facility Needs

I’ve provided a list of occupations with the highest projected job openings in Alameda County that require an AA/AS or vocational degree. This labor market information can be used to determine program and employer needs. Chabot offers programs that prepare students for many of the listed occupations. Please see pages 3 and 4.

3) Official Projections of Future Enrollment at the San Leandro Facility

I’ve contacted the state’s Chancellor’s Office for assistance in using the appropriate methodology to project enrollments at the San Leandro facility. I am currently waiting to hear back from them. In the meantime, I’ve identified the primary service area (i.e., all of the zip codes in San Leandro, San Lorenzo, and Castor Valley) for the San Leandro facility by using the official guidelines. I’ve included projections of population and attendance at Chabot College from the area that will primarily serve the San Leandro facility. Please see page 5.
4) **Assessment of Needs and Preferences**

There are six areas within this category:

a. *Adequate identification of the community area and characteristics of individuals to be served.*

I’ve provided the characteristics of Fall 2006 students from the San Leandro facility’s primary service area (i.e., San Leandro, San Lorenzo, and Castro Valley). I’ve also provided the race-ethnicity of the population living in the primary area that will use the San Leandro facility. Please see pages 6 and 7.

b. *Projection of potential enrollment demand in the service area that demonstrates significant unmet needs, taking into account plans of nearby secondary and postsecondary institutions.*

Please see page 5.

c. *Evidence of significant community support and identification of possible community opposition.*

I’m unable to determine this.

d. *Identification, insofar as possible, of present and future labor market requirements for the proposed service area, a broader adjacent region, and the state.*

Please see pages 3 and 4 for the future labor market needs for Alameda County.

e. *A reconciliation of educational services with projected labor market requirements and community program preferences, if possible.*

I’m unable to determine this.

Please feel free to contact me if you have any questions.
Key Finding: Headcount for the Chabot-Las Positas CCD is projected to increase by 34 percent between Fall 2007 and Fall 2015.
## Projections of total population and attendance at Chabot College and Las Positas College by age: 2002-2015

### Chabot College Service Area: Chabot cities are Castro Valley, Hayward, San Leandro, San Lorenzo, and Union City.

**Assumptions:**

1) Total 2002 & 2007 population estimates for Chabot and Las Positas cities are from the California Department of Finance.

2) Total 2010 and 2015 population projections in Chabot cities and Las Positas cities are based on ABAG projections by city.

4) Population projections by age in Chabot and Las Positas cities are based on age distribution of CCbenefits population projections for Alameda County as a whole in 2007, 2010, and 2015.

6) Total college enrollment projections are the total of all projected age groups.
