Compassionate Care AIDET

Words that Work to express Compassion and Caring:

- **Acknowledge**: Greet everyone you meet with a friendly smile and use their name if you know it.
- **Introduce**; Consistently and politely introduce yourself to others by name and department;
- **Duration**; Always give the customer an estimate of how long he or she may have to wait, and how long it will take to complete the procedure. Explain to patients how long it will take to get results back. Make it better and apply service recovery methods when necessary;
- **Explanation**; Advise others what you are doing, how procedures work and whom to contact if they need assistance. Communicate any steps they may need to take. Make words work. Talk, listen and learn. make time to help. As," Is there anything else I can do for you?"
- **Thank you**; thank the patient for choosing your hospital, or for allowing you to serve them. Foster an attitude of gratitude. Thank people for their patronage, help or assistance.

Mental Health Counseling on Campus

ANNOUNCEMENT

As part of Student Services, mental health counseling services are currently offered **in the Student Health Center, Bldg. 100, Room 120**. These services are **free** to our registered students. Please refer your students for assistance who may benefit from our services.

There is a short intake process with the Health Center Nurse Practitioner to ascertain any physical or medical issues, then the referral is made to the Mental Health Counselors. Counselor schedules vary and students are served on a first-come/first-served basis unless they are in crisis, if in crisis they are given priority assistance. Now is an excellent time to make this general announcement about services to students because we have appointments available.

Brief examples of some of the issues that student request assistance with are:

- Stress
- Anxiety
- Relationships/Family
- Depression
- Anger
- Loneliness
- Panic
- Helplessness/Hopelessness
- Sleep Disorders
- Weight gain/loss
- Internet gambling
- And more

We offer classroom presentations during the semester. If you are interested, please return this email and let us know when a Mental Health Counselor can come to your classroom to provide a short presentation of the services available. It is sometimes helpful for students to connect the face of a staff member with the services; it is less threatening somehow. Over the years, we have also provided specific presentations for classrooms upon request such as stress relief, anxiety coping strategies and other topics. Feel free to call me if you have a specific request. I

am available for consultation as needed.

To schedule a class presentation, that takes about 10-15 minutes, please provide the class, day, time and room number in your email. We will confirm a presentation date with you. Student Health Center, Counseling Division Phone: 510.723.6615 Fax 510.723.7012 email contact vdale@chabotcollege.edu

Tutoring on Campus

Welcome back everyone! The tutoring labs across campus are now open. Below you will find their hours of operation.
