

FYE FIRST YEAR EXPERIENCE PATHWAYS

Our First Year Experience (FYE) Community is designed to help incoming students maximize their first year of college by getting comfortable on campus, connecting with friends, and thinking of Chabot as home. Students in FYE get to explore their own interests and make friends while they work toward their degree.

WE ARE HERE TO HELP YOU SUCCEED!

COMMUNITY BENEFITS

FYE students have access to reserved sections of hard-to-get UC/CSU courses needed to transfer more quickly. Career exploration and interactive activities are built into the Pathways, along with access to faculty in your area of interest. Experienced Chabot students will be there to provide go-to answers to questions and support as well as individual and/or group tutoring.

HOW TO JOIN...Easy as 1, 2, 3!

1. Place your application in the FYE Application Box in Counseling (Bld 700, Front Desk). You do not need to wait in line.
2. Register for the courses in the Pathway Package of your choice **PLUS** the FYE Math Course at the level you assessed into.*
3. Attend College Orientation Day in August (food, fun, nuts and bolts for your first year, and ice cream social) and check your email regularly for Pathway updates.

*If you apply before May 18th, you will receive email instructions on when and how to register. Be sure to check your email.

Students who take a summer Math Jam (Math 122) can re-assess in Math. If they re-assess at a higher level, they can drop the first Math class they registered for and register for one at a higher level, reducing the number of Math classes they need to take. Take a Jam!

Note: Math 53 is for students in non-calculus majors who test into 65/53. 53 prepares students to take transfer level Statistics in one semester instead of two.

*If you apply before May 18th, you will receive email instructions on when to register. Be sure to check your email.

If you tested into English 1A, you can still join FYE by registering for **English 1A, crn 21201, Worthington, MW 10:30-11:45 instead of the English 102 in the package.

Directions: Select a Pathway you are interested in exploring, turn in your application, and register for all the courses in that Pathway PLUS a FYE Math class at the level you assessed into. * See below if you tested into English 1A. **
