**PETITION FOR RECLASSIFICATION FROM NONRESIDENT STATUS TO THAT OF CALIFORNIA RESIDENT  
Supplement for students younger than 19 years of age**

**STUDENT FINANCIAL INDEPENDENCE STATUS**

The California Education Code Section 68044 requires that the financial independence of a nonresident student seeking reclassification as a resident be included in the factors to be considered in the determination of residence. In order to establish financial independence, a student seeking reclassification must meet the following criteria for the current and immediately preceding **three** calendar years that the student has not been claimed as an exemption for state and federal tax purposes by his or her nonresident parents; that the student has not received more than \$750 from his or her nonresident parents; and that the student has not lived in the home of his or her nonresident parents for more than six week in any given year.

Failure to satisfy all of the financial independence criteria for the entire period will not necessarily result in a denial of residency status if the durational requirement is met and the manifestation of intent is sufficiently strong. Financial independence is of greater significance for the current and immediately preceding calendar year. Failure to satisfy all three of the financial independence criteria for the current and immediately preceding calendar year will normally result in a determination of nonresidency. Only if such a student can demonstrate that there exists (1) no indication of continuing residence in another state, or (2) if the student is dependent on a California resident, could such a student be reclassified as a resident. Financial independence or want of it, for the second and third calendar years immediately preceding the year in which reclassification is requested will be considered together with all other relevant factors in determining intent with no special weight attached to the financial independence factor. Therefore, please answer all of the following questions:
