Course Content Delivery - Contact Hour or “In-Class” Activities

Contact hours are those segments of instructional time where the student is actively engaged in learning activities and would reflect the same type of instruction implemented in a traditional face-to-face classroom. For example, a 3-unit course typically meets on campus for 54 contact hours of instruction, assessment, discussion and group activities. Explain how the instructional contact hours will be implemented for each week of instruction. Please list and describe each activity as well as the contact hours for each activity (you may not use all fields). More explanation regarding contact hours can be found at <http://www.chabotcollege.edu/cool/contacthours/> and examples of proposals submitted by faculty can be viewed at <http://www.chabotcollege.edu/cool/proposals/default.asp>.

Delivery Mode	Activity and Description	Contact Hours
online	Review of PowerPoint Lecture slides and Chapter(s) outline	1.5 hours per week
online	Weekly chapter quiz	.5 hours per week
online	Bi-weekly Primary source response	.5 hours every other week
online	Bi-weekly Image/video response	.5 hours every other week
online	Midterm exam and Final exam	1.5 hours for midterm and 2.0 hours for final
online lab	n/a	n/a
in-person	n/a	
in-person	n/a	
In-person lab		
TOTAL CONTACT HOURS: (Total Contact Hours According to the Course Outline: 52.5)		52.5

Course Content Delivery - Preparatory or “Outside of Class” (Homework) Activities

(Note: These are NOT part of Contact Hours)

typically each week student will read 1-2 chapters of the assigned textbook, as well as 3-5 primary source documents from assigned collection

Nature and Frequency of Student-Instructor Interactions

Describe the nature & frequency of how you will interact with the entire class and individual students, especially in terms of providing feedback on assignments, interventions when students are at risk of dropping or failing.

Will post regular video-casts introducing the weekly theme(s), highlighting important course information including exams, as well as making general comments on the contribution/participation of the class. Additionally I will be available for online office hours via email and/or Skype for at least two hours each week.

Nature and Frequency of Student-Student Interactions

Describe opportunities in your course for student-to-student interaction, such as discussions, group projects, peer review, and how you will build a collaborative, student-centered environment.

As part of the bi-weekly homework students will be required to offer peer assessment by commenting on the work/response of another classmate. *students will be required to post their submission before they can make a peer assessment.

Assessment of Student Learning & Academic Integrity

List and describe the methods of assessments you will use to assess learning in this course.

Weekly chapter quizzes, short analytical responses, midterm exam featuring ID terms, multiple choice questions and a short essay portion, and a final exam with ID terms, multiple choice questions, and an essay.

Describe the strategies you plan to use to promote academic integrity in your course.

In all bi-weekly activities students will have to submit their responses before they can access the work of their fellow classmates, moreover the quizzes and exams will all be time-constrained with the intent to discourage academic dishonesty. Additionally all assigned responses will conform to the plagiarism tool that we will use on canvas

Technology and Accessibility

Indicate the technology tools (software, web-based tools, etc.) you plan to use in your course (Examples provided include: Learning Management System (Blackboard), Presentations (examples: PowerPoint, Camtasia, etc.), Audio/Video (Examples: YouTube, 3CMedia, etc.), Web Conferencing (Example: CCCConfer), and Publisher Content (examples: Pearson, Cengage, etc.)

Learning Management System (example: Blackboard, Canvas, etc.), Presentations (examples: PowerPoint, Camtasia, etc.), Audio/Video (examples: YouTube, 3CMedia, etc.)

For the technology tools you have listed above, please describe your plan for utilization in your course.

Canvas – will be used as the central way to communicate with the students, disseminate information, course material, and assignments, as well as provide feedback for assessment. Students will also be required to take all exams via canvas

PowerPoint – all course lectures will be delivered via PowerPoint slides

I will routinely embed videos from Films on Demand in the weekly modules for students to access and provide a response

Accessibility/Accommodations for Students with Disabilities: All materials must be accessible to students with disabilities. During the development of your course, please make sure that videos are closed-captioning or a transcript is provided, audio is accompanied with a transcript, images include alternative/alt tags, detailed visuals include text descriptions, and tables are formatted to include row and column headers. For information and support for ensuring accessibility for your students (including captioning), please contact the Chabot Disabled Students Resource Center (DSRC).

I acknowledge and have read the above regarding accessibility/accommodations for students with disabilities.
