

Assignments

Users will enjoy a number of new enhancements to the Assignments feature, such as the ability for students to submit multiple attempts of an assignment when the Instructor would like to see iterative progress. Instructors can also allow students to turn in additional attempts of an assignment for exceptional cases or submissions. Additionally, faculty has more flexibility when it comes to submitting grades for their students.

Features Gained

+ Multiple Attempts

Instructors can allow students Multiple Attempts at the same assignment. The instructor can grade each attempt individually. This promotes the learning process and allows instructors to track progress.

+ Additional Attempts

Instructors have the ability to give specific students an additional attempt at an assignment in order to accommodate extenuating circumstances.

+ Submission Field

Students have access to a submission field in addition to attachments to provide text and links to online documents and websites.

+ Submission History

The Submission History provides a quick recap of the submission content, feedback, comments, grades and participants of each submission. This allows students to see what they have completed and allows instructors to view the progress made throughout the lifecycle of the assignment.

+ Release Assignments to Groups

The Assignments feature has been expanded to Groups so that a set of students can work together on one deliverable.

+ Group Grades

If a Group completes an Assignment, the instructor can grade one student's submission and submit the same grade to all students within the Group. The instructor also has the ability to provide each student an individual grade overriding the group grade.

Features Lost

- Digital Drop Box

The functions of the new Assignment tool made the Digital Drop Box obsolete. The workflows in the new Assignment tool enable users to accomplish the same tasks as the Digital Drop Box.
