Over \$22,000 in campus awards were made in the 2008-09 year. These funds are the result of the proceeds from the Fall and Spring fundraisers as well as unrestricted gifts. In addition, grants were written in partnership with Yvonne Wu-Craig and Gerald Shimada to fund more than \$65,000 for the 2008 Summer Youth Sports Program, which will serve approximately 300 area youth. We also continue to partner with Dr. Rosemary Delia on the Valley Foundation Grant for the Chabot College San Leandro Center, which is funded at \$100,000 a year for program and curriculum development for three years, in addition to the initial construction grant of \$500,000.

The Foundation will email an application for Fall Funding Requests to faculty and staff in the first few weeks of the Fall Semester, with awards scheduled for October 2008. We look forward to continuing to dedicate ourselves to bringing resources to the campus while expanding the Chabot College image throughout our service area.
