

Grants Year-End Report

Dear Chabot Colleagues,

It has been yet another productive year for the Chabot Grant Development Office with a number of partnership grants getting funded. The Hayward Promise Neighborhoods Planning Grant, led by CSUEB, is only one of 21 applications funded in the nation and only one of two applications funded in California. Work groups have been meeting and are preparing to apply for an implementation grant in June.

We were also notified of funding for continuing our current TRIO ASPIRE program and for a new TRIO program called EXCEL which provides support services specifically targeting the needs of ESL students. Several proposals were also funded in partnership with multiple organizations such as UC Berkeley, Tri-CED Recycling and local cities in our service area.

Grants Office priorities for the next year will focus on ramping up Hispanic-serving Institutions applications for funding and increasing grants office outreach and increasing the involvement of faculty in writing grants for their areas.

With high regards,
Yvonne Wu Craig

GRANT DEVELOPMENT PRIORITIES FOR 2011-12

- 1) Continuing to notify the College of upcoming grant opportunities.
- 2) Develop, write and submit the Hispanic-serving Institutions (HSI) Science, Technology, Engineering and Math grant (Spring 2012) and continue to develop the Title V HSI proposal (Spring 2013).
- 3) Actively support Chabot staff to apply for grants.
 - Provide the following grants office support to individuals and divisions:
 - Conduct grant-writing workshops specific to division and discipline interests
 - Facilitate the grant application process (templates, editing, signatures).
 - As time permits, assist individuals with writing grants, and, on a limited basis, write proposals for staff based on strategic plan priorities (as necessary, writing will be prioritized by the PRBC).
 - Disseminate grant alerts across campus.
 - Help staff to formulate grant ideas and match with funding sources (both public and private)

Funding Re-scinded by Dept. of Labor

Grants Update

Year-End Report

Without the playing with fantasy no creative work has ever yet come to birth. The debt we owe to the play of imagination is incalculable.

OTHER GRANT DEVELOPMENT OFFICE ACTIVITIES

- Presented grant writing activities and priorities periodically at Planning, Review and Budget Committee (PRBC) meetings
- Served as co-chair of the PRBC and Classified Senate Vice President
- Provided ongoing funding research, proposal preparation, editing, and writing support
- Collaborated with partner organizations to develop and submit grant proposals
- Coordinated the grant development, writing, submission, and post-award transition processes
- Maintained a website for the Grant Development Office
- Maintained a running log of specific division and individual faculty/staff funding needs
- Developed and created a Master List of currently funded Chabot grants and contracts (almost complete)
- Met with individual faculty about their projects and potential funding sources that may support project activities

PROFESSIONAL DEVELOPMENT COMPLETED

- Council for Resource Development National Conference and member of the Federal Funding Taskforce (November 2010)

Chabot Grants Process

The grants process at Chabot is a coordination process more than an approval process. It serves to provide clear and consistent communication between the grant developer/writer, faculty and staff, and their respective dean/manager about projects in development. This ensures that program, facility and workload implications are considered and supported.

In January 2010, the Grants Subcommittee was dissolved. It is now located in the Planning, Review, and Budget Committee (PRBC) in order to increase efficiency, reduce redundancy of staff time commitments, and increase transparency by moving grant updates and reports to a larger, more representative body. The GDO report is now a standing PRBC agenda item. The details of the grants process, however, remain relatively the same as outlined below.

1. Grant ideas and potential proposals are submitted to the Grant Development Office via program review documents, email inquiries, and meetings.
2. If a funding source is found, a team is formed (if none exists already) to develop and write the proposal.
3. For more a more detailed explanation of the grants process and other grant writing resources, visit the Grant Development Office website (www.chabotcollege.edu/grants/).
