

Chabot College Student Characteristics Fall 2017

Veterans vs. Non-Veterans

In Fall 2017, 406 veterans attended Chabot, making up three percent of the student body. The typical veteran at Chabot was a 25-29 year-old White or Latino man, older than most Chabot students. Like all Chabot students, most veterans were continuing students; forty-eight percent with less than 30 units earned. About thirty-eight percent were full-time; thirty-four percent attended only during the day. Close to half intended to transfer to a four-year college, while twenty-two percent of vets were here for an occupational certificate or training.

Veterans earned five percent of degrees and four percent of certificates in 2017-2018 which is more than their representation on campus.
