

# Chabot College Student Accreditation Survey: Fall 2007

## Highlights

### Overall Satisfaction with Chabot

The Student Accreditation Survey was conducted in October 2007 in a representative sample of sixty-nine course sections and was completed by 1,379 students (63% full-time and 37% part-time). The main purpose of the survey was to collect student feedback about Chabot for the Accreditation Self-Study report. The survey included questions from the biennial Student Satisfaction Survey on satisfaction with Chabot academic and student services and campus climate. Most students are satisfied with their overall experience at Chabot, instructors, the physical condition of Chabot, student services, and campus climate. Highlights are shown below.
