

Chabot College

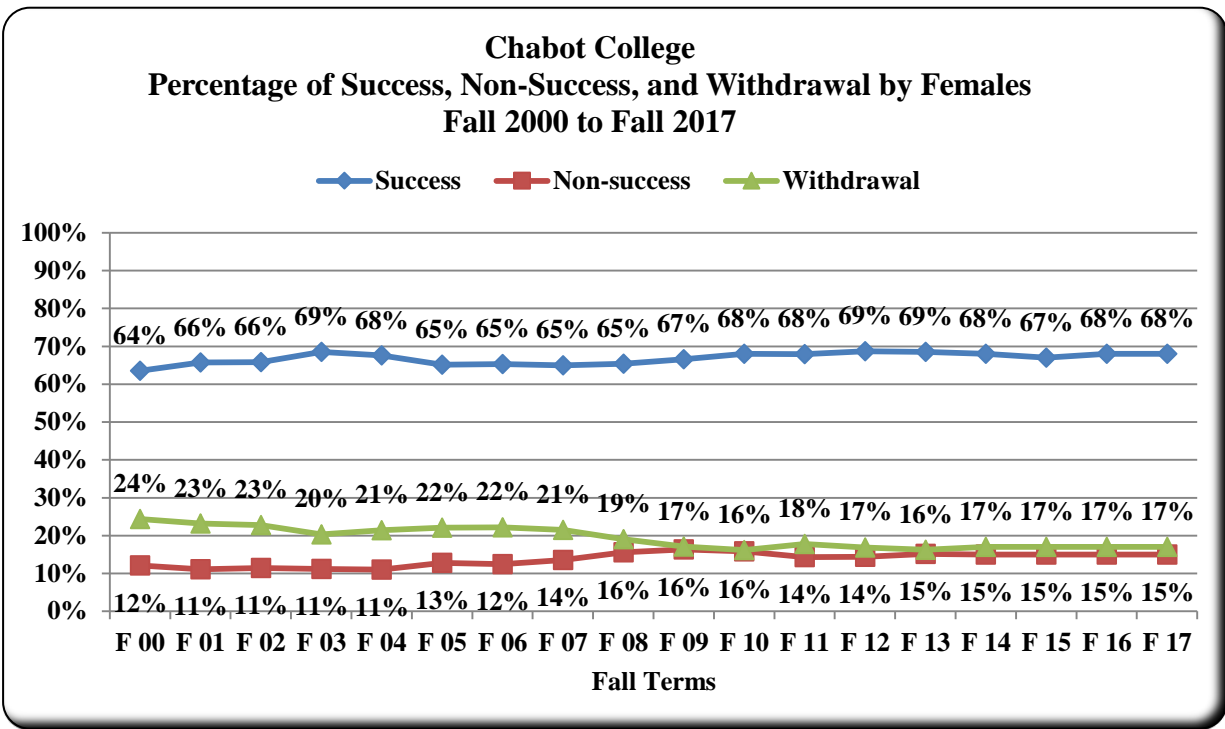

Course success and withdrawal rates, by courses and students

Fall 2000 to Fall 2017

Females

Chabot female students' success rates have remained stable at 67-69 percent in the past eight years, rising from an average 64-67 percent in early 2000's. Withdrawal rates dropped from 21-24 percent in early 2000's to 16-17 percent in recent years. Non-success rates (D, F, No Credit, No Pass, or Incomplete) have gone up slightly from an average of 12 percent during the early 2000's to 15 percent in Fall 2017. The percentage of students who withdrew from all their courses fell from 18 percent in the early 2000's to 10-13 percent in recent years. Compared to the early 2000's, students are now more likely to stay enrolled in their classes, whether they are succeeding or not.

Quarter/ semester	Number of course enrollments at Census	By course enrollments			By students	
		Percentage of course enrollments			Number of students enrolled	Percentage of students
		Success (A,B,C, CR, P)	Non-success (D, F, NC, NP, I)	Withdrawal (W)		Withdrew from all courses
Fall 2000	20,015	64%	12%	24%	7,933	16%
