

Students Love the Transfer Degrees!

Almost twice as many students graduated with transfer degrees in 2015-16 as they did in 2013-14, driving the total number of AA/AS degrees awarded at Chabot over 800 for the third year in a row.

See attached for the fourteen transfer degrees and nine other AA/AS degrees that increased their number of graduates in the last three years.

Kudos to the faculty who spent many hours creating the curriculum for the transfer degrees, and to the intrepid Jane Church, who spearheaded and supported the process to get the first 18 Chabot transfer degrees approved by the state, more than most other community colleges. Thanks to the counselors and all faculty, classified professionals, and administrators who guided the students towards these degrees. Everyone's efforts are paying off now as more and more students choose and complete these degrees.

This is an example of an effort that furthers our strategic plan goal to "increase the number of students that achieve their educational goal..." The student graduates thank everyone involved !

For the details on all the degrees in the last 10 years, go to:
