Policy: Group Study Spaces

Policy

The Library has five group study cubicles/spaces for students to utilize in groups of two or more. Students studying alone may utilize the space, but will be asked to move should groups of two or more wish to study together. Students are encouraged to use our silent study room in room 107A/B, or our study carrels while studying alone. Please speak with the reference librarian on duty about using these spaces and the best locations to study within the Library.
