

Instructions:

1. For each piece of equipment, there should be a separate line item for each piece and an amount.
For bulk items, list the unit cost and provide the total in the "Amount" column.
2. Make sure you include the cost of tax and shipping for items purchased.

Priority 1: Are *critical requests required to sustain a program* (if not acquired, program may be in peril) or to meet mandated requirements of local, state or federal regulations or those regulations of a accrediting body for a program.

Priority 2: Are *needed requests that will enhance a program* but are not so critical as to jeopardize the life of a program if not received in the requested academic year.

Priority 3: Are requests that are *enhancements, non-critical resource requests* that would be nice to have and would bring additional benefit to the program.
