

## MINUTES OF SLOAC 2-17-15 MEETING

**SLOAC members present:** Robert Yest, Harjot Sawhney, Kent Uchiyama, Ken Grace, Adina Pineschi-Petty, Christina Mendoza, Felicia Tripp, Clayton Thiel, Hilal Ozdemir, Mireille Giovanola

**Other attendees:** Gene Groppetti, Rachel Ugale, Liem Huynh

**Meeting called to order at 12:08 pm.**

Minutes for 02-03-15: Felicia approved minutes as corrected, Rob seconded. Unanimously approved.

### Rachel's update

The people at Curricunet are ready to show a preview of the system. They would like to schedule a time for next week. Many group members cannot make the meeting since it's not a time when SLOAC regularly meets. The group decided that Tuesday February 24<sup>th</sup> at noon works best for some of the members. The meeting will be a phone-in meeting. Clayton stated that he has trouble hearing the person and would like a face-to-face meeting. Mireille stated that Stacy is anxious about having the system implemented. This meeting will be for SLOAC members. This is not a training session, it is a preview on how the system will be set up.

### Fall 2014 Critical Thinking Preliminary Results

Mireille is proposing that on March 3<sup>rd</sup>, those people who participated in the Fall CWLG/GE CLOs Critical thinking meet up to talk about the assessment. The group liked the idea. Felicia suggested that the email be sent out soon. At this meeting we will discuss the results of the assessment.

### ACCJC report

We will need to review the feedback on the College Status Report on SLO implementation. The group needs to read and review the document and we will discuss the results at a later meeting. The document was distributed to all SLOAC members.

### Flex Day Debriefing

Rob reported that he attended two division meetings on flex day. From P.E., the meeting was positive. Some people sent CLOs, but he is not looking for that. He is glad that he received this information. The CLOs need to be on the program review and he will begin validating them. Adina stated that the PLOs for Dental Hygiene and Nursing are all set. The only ones that they cannot get are those which are in Health, because the discipline lead is out on maternity leave. For Dental Hygiene, she stated that all the information is there. Rob stated that Business instructors did not hold a meeting in the afternoon: they stated that they met earlier and will not be meeting again. Rob then joined the AHSS and the group was responsive and they asked questions. For Math and Science, he is meeting with individuals separately. Felicia will be talking to Counseling tomorrow and she will be working on it. Steve reports that for the most part his discipline is doing well. Rob will be meeting with Wanda Wong about SLO work from

her division (Applied Technology and Business). Mireille suggested that SLOAC needs a representative from Business.

The feeling that came out is that work is getting done in regards to SLOs.

Rob will be asking Chasity Whiteside to put on the website the points of contact for SLOs/PLOs. Rob now will go through Program Reviews and see if there are enough program reviews listed. He will also address the narratives. He has been talking one-on-one to people in regards to their progress of SLOs. People will have to submit any SLO work that should have been submitted as a revision of the appropriate Program Review. Any changes will go to Deonne Kunkel (PRBC chair). Courses that were assessed last fall and are being assessed this semester should be discussed this semester, and a closing-the-loop form must be submitted by May 1. These will be part of this fall Program Review. People who do the work this semester will not have to do it again in the fall.

**Meeting adjourned: 1:00 pm.**
