

MINUTES OF 10-7-14 SLOAC MEETING

SLOAC members present: Steve Small, Christina Mendoza, Bruce Mayer, Felicia Tripp, Kent Uchiyama, Harjot Sawhney, Mireille Giovanola

District and College IT personnel: Jeannine Methe, Liem Huynh, Rachel Ugale

Also present: Wayne Pitcher (Curriculum Chair), Cristina Moon (Spanish)

GoverNetRemote: Steve Thyberg

Meeting called to order at 12:08 pm.

1) Approval of 9/16 and 9/30 minutes: Tabled to allow for more time for the Webinar.

2) Webinar recording (replay) of Curricunet SLO module presentation with Steve Thyberg (vendor). Questions/discussion/feedback

Jeannine Methe passed out a handout titled “Chabot Assessment Module Design/Screen Suggestions” (with power-point slides and commentaries) so we could follow Steve Thyberg’s presentation of the module.

We decided to listen to the whole replay, and ask questions at the end.

1) ELumen practice:

- a. We linked CLOs (Course Learning Outcomes) to CWLGs (College-wide Learning Goals). However, if a particular CLO mapped to several CWLGs, the first CWLG only was captured.
- b. We also linked CLOs to PLOs (Program Learning Outcomes).
- c. The system did not allow us to link PLOs to CWLGs.

2) We decided that College-wide learning goals (CWLGs) are the same as GE CLOs.

3) We would like the Curricunet module to allow us to link CLOs to CWLGs/GE SLOs (drop-down menu or similar), and our CLOs to our PLOs.

Could the system allow us to map our PLOs to the CWLGs/GE CLOs? Whether we want to do this can be decided at a later date, especially if it is going to slow implementation down.

4) PLOs: cleaner to have them by department.

5) Review of screens:

- CRN input screen:
 - Also include the course-level input
 - Question on grades was removed
- Course SLO screen:
 - SLO data transferred from eLumen will be flagged as such (note: eLumen data will all be transferred at the same time); SLO data entered through Curricunet will be flagged differently. Currently, CLOs for new/revised courses and PLOs for new/revised programs are/should be entered into Curricunet as appended files.
- Assessment will occur... Add year to Summer, Fall, Spring.
- Users Screen:

We agreed to have a flexible system: data can be entered either by the primary author, or by participants.

The webinar recording and the final design document will be posted on the SLOAC website.

5) Good of the Order.

Next meeting: October the 21st

* SLOAC members must discuss whether they want the PLOs to be mapped to the CWLGs/GE CLOs and get back to Jeannine Methe.

Respectfully submitted on 11/25/14

Mireille Giovanola
