As the Dean of Special Programs & Services I want to personally welcome you to Chabot College and introduce you to the many support services we offer in the Disabled Student Resource Center (DSRC) to help you be a successful college student.

As a student with a disability, you need to be well informed about your rights, responsibilities, and resources available to ensure you have the best educational experience. Located in the 2400 building, the DSRC’s mission is to provide students with disabilities an equal opportunity to learn through academic accommodations and individualized plans. To create an environment which is truly accessible and inclusive of all persons, the provision of academic accommodations is a team effort between you the student, your counselor, and service support staff.

If you are the parent of a student with a disability, their transition into college may be a scary time for you. You have been your child’s greatest advocate, but to put your mind at ease know that our team of experienced counselors, instructors, and support staff are well trained to provide strategies that reduce or remove barriers to education for students with disabilities. Our experts will provide your student with comprehensive services and accommodations in an effective and timely manner to give them a strong start to college.

Students, as you become more independent and responsible you will gain confidence both academically and personally. It is our desire to empower you to believe that you can, and you will, achieve your goal(s) of earning a certificate, AA/AS degree and/or transferring to a 4 year College or University. Congratulations on taking the first step to your new beginning. I look forward to supporting your academic and personal success at Chabot College!

Dean of Special Programs & Services

“PEOPLE DON’T CARE HOW MUCH YOU KNOW, UNTIL THEY KNOW HOW MUCH YOU CARE”
Disabled Student Programs and Services of Chabot College seeks to make its services available to individuals with a physical, communicative, psychological or learning disability. DSPS provides opportunities for individuals to achieve through a richer education and more effective life. Our goal is to encourage students with a disability to become independent and assertive participants in their own educational process. Accessibility in classes, facilities, extracurricular activities, and in all student support services is our ultimate goal. We believe citizens with disabilities should have a chance to realize their highest potentials.

STUDENT SUCCESS STATEMENTS

**GINNY ALMOND**
Major: Business Administration

I learned a lot of tools by taking classes like Kurzweil 3000, PSCN 20 (The College Experience) and Learning Skills classes.

**SALEH JAMJOUM**
AS Degree: Business Administration
Transferred to CSUEB

DSPS helped me by providing me a note-taker, and allowing me to take my test in the testing lab which is located in the DSRC.

**GRACE JOHNSON**
Major: Criminal Justice

DSPS has been a tremendous help with getting around campus due to their cart service! The mobility service driver, makes it easier for students like me to get to class on time!

**VANDELLA COURTNEY**
Certificate: Entrepreneurship

The DSRC staff helped me in the High Tech lab by showing me how to use screen readers, speech recognition, keyboarding and word processing.

DISABLED STUDENT RESOURCE CENTER

The DSRC offers support services to students with temporary or permanent disabilities. Any student with a physical, communicative, mental health, or learning disability is eligible. Located in our Center are our counselors and professional service support staff. DSPS counselors are available to assist students’ with academic, vocational, and personal counseling. The student and counselor will work together to determine reasonable accommodations that the student is eligible for. Accommodations could include a note-taker, additional time for test, or assistive technology.

LEARNING SKILLS PROGRAM

The Learning Skills Program is designed to assist students with learning disabilities in areas of reading, writing, and math. Upon referral students will be placed in English 116, an assessment course. In this course extensive evaluations will be made to determine areas of strength and weaknesses that might account for a comprehensive disability. After completion of this course an evaluation with recommendations will be provided to the student.
SERVICES & EQUIPMENT

HIGH-TECH CENTER

Computers with state-of-the-art adaptive hardware and software make up the High Tech Center. Programs include screen readers, screen magnifiers, voice recognition software for students who cannot use the keyboard, and a program to assist students in reading textbooks that the student has scanned. The Center also provides other programs to help students learn keyboarding and word processing, as well as various software used in other classes.

ADAPTED PHYSICAL EDUCATION

Students enrolled in these courses will receive an individualized program of activities based on their physical limitations such as range of motion, weight training, flexibility performance, and self-defense. A variety of equipment, including treadmills, pulleys, weights, walkers, and exercise bikes, are available for students to use.
