AGENDA ITEM

Item: 6.1

From: Ashanti Robinson, SSCC President

Subject: International Student Resolution

BACKGROUND:

In early July, the Immigration and Customs Enforcement (ICE) agency threatened the deportation of International Students. While the immediate threat has been resolve, this action has brought to light the issues and struggles that have been amplified during the COVID-19 pandemic.

In support of the International Students at Chabot College, we have drafted a resolution for our Board of Trustees to affirm our support for international students and recommend action to ensure their success.

RECOMMENDED ACTION

Approve a resolution to the Board of Trustees in support of International Students.

Student Senate of Chabot College
Resolution on Support for International Students

Whereas Chabot College has proudly admitted international students from all over the World throughout its history.

Whereas international students enrich our campus by providing a diverse perspective that helps the college achieve our own community and diversity values by honoring and respecting cultural diversity and encouraging diversity in our curriculum and community of learners. International students also fulfill our district mission statement of preparing students to succeed in a global society.

Whereas international students are bound to restrictions in pursuing an education including but not limited to:

- Application fees, significantly higher enrollment fees, and no opportunities for federal or state financial aid.
- Major limitations and restrictions on working and applying for jobs while attending school.
- Limited time to complete their program of study.
- Requirement to attend full time with limitations on number of online courses allowed (1 online class up to 3 units.)
- Restriction on withdrawals due to implications of falling below full time status and resulting in paying out of pocket more.
- Threat of deportation for dropping classes and falling below full time status is constant.

Whereas the transition to a new country creates significant mental and emotional challenges for international students such as cultural and academic adjustment, language barriers, targeted racism and violence as a result of xenophobic and divisive policies and government statements, isolation, anxiety, fear, and other mental health concerns.
Whereas International Students bring significant contribution to Chabot college such as:

- International students’ tuition remain in the district to offer more classes for all students.
- International students contribute to the local economy through their housing, utilities, transportation, and personal expenses.
- International students bring diversity, global fluency and cultural awareness to our College and our domestic student counterparts. They give fellow-students a window into other cultures, worldviews, and ways of organizing societies. International students may be the only person from a specific country or geographic region that local students meet, and this cross cultural exchange provides needed lessons in diversity and our shared humanity.

Whereas the recent threat of deportation of international students was one of many divisive federal policies and statements targeting immigrants and international students to create an unwelcoming and sometimes hostile environment for international students.

Be it resolved Chabot College welcomes and supports students without regard to their immigration status or perceived immigration status and will continue to admit students in a manner consistent with our non-discrimination policy.

Be it resolved Chabot College will continue to support members of our community from all countries including students and employees from abroad because we know that we are stronger because of them.

Be it resolved that Chabot college will develop and/or enhance resources and support services for international students including:

- Counseling and mental health support
- Special consideration for on campus jobs
- Support for finding off campus jobs such as funding for immigration services application fees

Be it resolved that Chabot College will consider academic accommodations to mitigate challenges and limitations for international students e.g. priority registration, reserved tutoring services.

Be it resolved that Chabot College will fight any future action that threatens the legal status, well being, and safety of international students.
