

I want to be the vice president for community relations, my major is human services (psychology counseling) I picked this major because I had been a social worker for sometime and wants to be a well educated social worker, three adjectives to describe me would be, focused driven, very committed and selfless service oriented. I chose these words because they truly represent me. I would love to represent Chabot college outside of the college, meaning being a conduit to not just the students but to the outside community and the diaspora especially foreign students with special interest in African students, I believe I would make a good representative of the school. I would achieve this by creating avenues through which the college would be appreciated by both people in and outside of it.
