I want to personally welcome you to our learning community.

Chabot College has been the first step along the path to college learning and success for generations of seekers who are now shaping our region, state, and country. For over half a century the College has delivered superb educational opportunities, support, and mentoring to students just like you. As an educator at Chabot for thirty years, I am awed by the persistence, endurance, and achievement of our graduates, who transfer to excellent universities or complete degrees and certificates in one of our career technical preparation programs. Our students and staff represent a virtual rainbow of diverse cultures, one of our greatest riches at Chabot.

We are proud to be the open door to higher education for many Dreamers and for those who are first in their families to attend college. We are committed to social, economic, and environmental justice, areas of passion and purpose for many Chabot students, teachers, and staff. I hope to meet you along your pathway to success here and beyond as you join our wonderful community of teachers and learners.

Dear Student,

Welcome to Chabot College! We are excited to have you join our community and be a part of a family that excels in every area. What makes Chabot College so unique is the well-rounded curriculum that our students receive during their tenure. Our students are able to venture out into new areas whether it’s participating in sports or exploring their artistic vision. We are sure that you will find a place to call home as well.

This year, we are taking new challenges and approaches to ensure that our wonderful campus continues to strive for greatness and progresses into the future. Our award-winning faculty and staff are here to help along the way and our academic support programs will help you reach your goals.

The Student Senate of Chabot College strives to ensure that your education and safety are top priority around the campus. We are here to answer any questions, comments, or concerns you may have and any new ideas that would better our student body.

We look forward to assisting you in your endeavors and are looking forward to a wonderful new year.

The First Year Experience (FYE) Program focuses on student success through different “pathways” based upon your interests and academic goals. Students will join a community of like-minded peers to work towards their degree while exploring major and career options with knowledgeable professors and counselors. [www.chabotcollege.edu/academics/fye](http://www.chabotcollege.edu/academics/fye)

Select a pathway based upon your academic and career interests. We provide a class schedule, typically with options for full-time and part-time students, for both Fall and Spring semester of your first year. You are guaranteed enrollment in high-demand classes and receive vital support from across the Chabot College campus to help you be successful in your first year and beyond.

- **Art and Digital Media**
  This is a great pathway for students interested in Graphic Design, Digital Media, Photography, Painting, Drawing/Illustration, Ceramics, and Sculpture.

- **Business**
  The Business pathway allows students to explore their interests in various business majors ranging from Health Care, Retail and Small Business Management to Accounting, Entrepreneurship, Human Resources, and Small Business Ownership.

- **Change It Now!**
  This Learning Community is a year-long, accelerated writing and leadership program designed to empower students interested in social justice and making positive change in the world. Students explore community issues such as education, health care, budget cuts, environment, poverty, violence, and more!

- **Health Care & Community Wellness**
  The Health Care & Community Wellness pathways are a perfect fit for those interested in Nursing, Dental Hygiene, Health Science and Medical Technology related majors. This pathway offers reserved seating in the high-demand core Biology and Chemistry courses. Pre-HCCW option available.

- **Public Service/Law**
  The Public Service/Law pathway allows students to explore their interest in Administration of Justice, Law School, or Public Service.

- **Social Science**
  The Social Sciences pathway prepares students to major in Anthropology, Economics, Ethnic Studies, Geography, History, Political Science, Psychology, or Sociology, and for future careers across many fields that rely on analytical, leadership, and interpersonal skills.

- **STEM**
  The STEM pathways are for students interested in Science, Technology, Pre-Med, Pre-Dentistry, Engineering and other related majors.
