Summer 2006

General Information for Kids

What is Kids on Campus – Summer Camp 2006?
It is a program designed to give students ages 8 to 13 a unique learning experience on a college campus. Over a three-week period, they will have the chance to take challenging and enriching courses to stimulate their curiosity and reinforce their basic skills. But mostly it will be lots of fun!

What is the camp schedule?
The Kids on Campus program is being offered Mondays to Thursdays, the weeks of July 10-13, July 17-20, July 24 -27. There are three sessions in each day, with 15 minutes in between classes and a supervised lunch-and-play time for an hour between the morning and afternoon sessions. The sessions run from 9 a.m. to 3 p.m. We also have Sports Camps and Super Saturday classes throughout the summer.

Is there an after-camp program?
Yes. We have formed a new Kids’ Club that offers campers a two-hour program of organized activities. They can choose from an arts and crafts program or an all-around sports program. The cost is $15 a week (which comes to only $7.50 an hour) and campers must enroll for an entire week at a time when they register for classes.

Why are there grade levels for the academic classes and age ranges for others?
The grade levels for the math and language arts classes are based on California State education standards and are highly recommended for children entering the grades indicated. The age ranges for the other camps are suggested based on the course content.

What is the cost?
The cost of the camp is $185 per week ($199 after June 9) for three camp sessions, which includes round-the-clock supervision by a full-time camp director and numerous camp counselors who help the instructor in each classroom and escort each child to their next class. Some classes have a small fee added on for supplies, and there is a $15 registration fee which includes a special Kids on Campus T-shirt and Frisbee. There is an extra charge for the new after-camp Kids’ Club (see above). If you sign up for all three weeks, there is a $25 discount off of the total cost of these weeks.

How do I plan my schedule and register for camp?
• Go to pages 6-7 and choose the week(s) and the classes you are interested in.
• Check pages 8-10 to see the class descriptions.
• Register for camps on page 9 (registration form for each child). Be sure to fill in all of the information.
• Mail, fax, email or bring in the registration form in person. The camps fill up fast so sign up early!

Will I receive a confirmation?
Yes you will. And lots more. Once we receive your registration form with payment, we will send you a package with confirmation of your classes and other information, including a medical release form, a student conduct form, a list of Frequently Asked Questions, a campus map, and a short-term parking pass. You must return your signed forms to us by the day camp begins or your child will not be able to attend the first session. We suggest you send them to us ahead of time so you don’t forget.

Will there be an orientation for campers and their parents?
Yes! This year we will offer a chance for parents and campers to get a tour of the campus, meet some of the instructors, counselors, and Community Education staff, and ask all the questions you want. You will receive more information about it in your confirmation packet.

What should my child bring to camp?
Yes. W e  have for med a new Kids' Club that of fers campers an extra charge for the new after-camp Kids' Club (see above). If you sign up for all three weeks, you will receive more information about it in your confirmation packet.

How do I drop off and pick up my child from camp?
Your child is very important to us. We require that he/she be signed in and out of camp each day. You can choose to do that yourself or give your child permission to do it themselves. If you are doing it, you can use the complimentary 30-minute parking pass that will be included in your confirmation packet. If you want your child to sign in and out, you must fill out the permission form in the packet before camp starts. We cannot accept permission slips after that time.

What is your refund policy?
Our program does not offer refunds, transfers or credits in kindness to children and their parents who have committed to our program and signed up on a first-come, first-served basis. Be sure to look over our selection of camps and choose carefully.

Do you have a policy on behavior?
Yes. All campers are expected to conduct themselves in a manner that demonstrates courtesy and respect for others and facilitates learning. Disruptive students will be dismissed from the program and the parents will be contacted to pick them up.

For information, call (510) 723-6665 or (510) 723-7531
Community Education Summer 2006

Registration and General Information

How is Community Education different from the academic college program?

Community Education offers a wide variety of short-term, non-credit classes to community members ages 8 to 80+ to support lifelong learning. Because the classes do not offer college credit toward an academic degree, there are no exams or grades to worry about, and no transcripts or applications for admission required, and no comprehensive application to fill out. Many of the instructors are Chabot College faculty members and others are community members who are experts in their fields.

How do I register?

You can register by mail, by e-mail, by phone, or by fax. The instructions are on the registration form on the inside back cover of this catalog.

Do you offer any kind of financial aid?

Sorry, we don't. Because we are not a state-funded program, we must use the tuition to pay for our costs, including the printing and mailing of this catalog.

Do I have to pay for parking?

Yes. Chabot College parking regulations are in effect Monday through Saturday. Daily parking permits can be purchased for $2 from dispensers located in the student parking lots. A campus map showing the parking lots is on the last page of this catalog.

Will I get a refund if I cancel?

If we receive written notice of cancellation within five days before the course begins, you will be refunded your money, less a $10 processing fee. Once a course begins, we are unable to refund any portion of your fee. If the college cancels a class due to low enrollment, you will receive a full refund within three to six weeks. There is also a $10 processing charge if you change classes once you are registered. You can only change a class once per semester, and the credit must be used within the same semester.

Why do classes get cancelled?

The Community Education Program is self-supporting and not funded by taxpayers' dollars, so we rely on registration fees to pay for all costs associated with these classes, including the cost of producing and mailing this catalog. If we don't have enough students enrolled in a class, we can't afford to offer it. That's a good reason to register early!

Will I get a confirmation letter?

Because of the time involved, we do not automatically mail out confirmation letters to everyone who registers. However, if you send an e-mail to chabotcomed@chabotcollege.edu, we will be happy to send you a confirmation. If you register over the phone with a credit card, you will receive an immediate verbal confirmation. Be sure to mark your calendar with date, time, and location of your class.

We have made every effort to make sure the information in this catalog is correct. Chabot College is not liable for publication errors. Courses, programs, instructors, and class locations together with other information contained herein are subject to change without notice by the Chabot College administration for reasons related to student enrollment, financial support, or for any other reason at the discretion of the college.

These classes are for your information and enjoyment. They do not necessarily reflect the views or policies of Chabot College, and Chabot College does not endorse any person, product or belief system.

Chabot College provides equal opportunity in education and employment and prohibits discrimination based on race, color, religion, sex, national origin, ancestry, age, marital status, disability, sexual orientation, and/or Vietnam era or special disabled veteran status.

Isobel F. Dvorsky, President • Amulfo Cedillo, Ed.D., Secretary • Donald L. “Dobie” Gelles
Hal G. Gin, Ed.D. • Alison S. Lewis, Ph.D. • Barbara Mertes, Ph.D. • Carlo Vecchiarelli

Register by mail, fax (510-723-6795) or e-mail: chabotcomed@chabotcollege.edu
Select the camps you like, read the course descriptions on pages 8-14, and put together an exciting summer schedule. You can take one, two or all three weeks of camps! (Camps cost $185 per week, $199 after June 9.) Then fill out the registration form on page 23 and send it to us with your payment. We will send you a packet of materials confirming your registration. (Asterisks indicate $10 materials fee). Entering grade levels for academic classes are recommended based on California State standards. Ages for other classes are suggested based on the class content.

**Kids on Campus Schedule**

**July 10-13**
**Monday-Thursday**

To register for Kids on Campus, go to page 26.

Register by mail, fax (510-723-6795) or e-mail: chabotcomed@chabotcollege.edu
Arts, Crafts & Cooking

Draw Anime Cartoons
Would you like to be able to draw the figures seen in the popular “anime” method of cartooning? In this camp you will learn step-by-step details on how to draw characters and their features, including the body, facial expressions, postures, and clothing. You will also learn about coloring, how to emphasize lines, and how Adobe Photoshop software can enhance your drawings. Instructors: Shelley Chen and Katie Walker.

Materials fee: $10
Camp #4000  M-Th, July 24-27, 1:30-3 p.m. (all ages)

All-Around Art
Come join us as we use some of the most basic materials of paper, wood, and recycled goods to discover the artist within you. We will explore a different art form every day—from making designs using the Japanese art form of origami to create three-dimensional picture frames to using your imagination to create art from recycled cans. Bring your curiosity and your creativity! Instructor: Leslie Low teaches at Eden Gardens Elementary School.

Materials fee: $10
Camp #4001  M-Th, July 10-13, 1:30-3 p.m. (ages 8-10)

Step-by-Step Drawing
Unlock the artist in you! Pick up a pen and draw with guided step-by-step instructions. Each day you will draw one or more pictures with a thin black marker and finish with colors. Draw animals, nature scenes, a still life, and even abstract art. Every picture will be a masterpiece. Leave with a portfolio of your favorite pieces of artwork. Instructor: Denise Landry is a teacher in the San Lorenzo Unified School District.

Materials fee: $10
Camp # 4002  M-Th, July 10-13, 1:30-3 p.m. (ages 8-10)

Scrapbooking & Cardmaking
Do you have lots of photos of family and friends hidden away in a shoebox or stuck inside your digital camera? Well bring about 20 of them to this camp to display proudly in your own personalized scrapbook! You will use punches, stamps, fun scissors and other colorful materials to create a 6x6 album with your own theme. You will also get to experience Card Crazy! and use some of the same materials to create several different cards for family and friends. You will never send an ordinary card again!

Materials fee: $10
Camp #4003  M-Th, July 10-13, 1:30-3 p.m. (ages 11-13)
Arts, Crafts & Cooking

Wonderful Watercolors
Experience the beauty and transparency of watercolor in this class taught by a master artist. The camp will cover basic materials, color, composition and techniques for making watercolor art. Students will practice still life, landscape and figurative painting. The instructor will provide demonstrations and will work individually with the students. Instructor: Alice Hsu
Materials fee: $10
Camp #4004 M-Th, July 17-20, 1:30-3 p.m. (ages 11-13)

Stamp Design
Pull up your sleeves and dive into the world of rubber stamping design! Using a wide variety of rubber stamps, as well as thumb-printing, hand-printing, and stamps that you will make from sponges, you will make creative greeting cards for all occasions, design and laminate your own book covers, create jewelry and flowerpots, and even illustrate your own personal children's book using thumbprint characters and colored pencils. Instructor: Leslie Low teaches at Eden Gardens Elementary School.
Materials fee: $10
Camp #4005 M-Th, July 17-20, 1:30-3 p.m. (ages 8-10)

Marvelous Meals
Do you want to give your parents a break and learn to make great full-course meals for breakfast, lunch and dinner? In this hands-on camp you will learn the proper way to prepare several delicious meals like breakfast omelets, grilled sandwiches, spaghetti and meatballs, and desserts to top them off. Plus you'll learn to make some creative afterschool snacks. You will also find out the proper kitchen tools to use as well as important safety tips. Each camper will get a "doggy bag" to take home at the end of each day and a "cookbook" at the end of the camp.
Materials fee: $10
Camp #4006 M-Th, July 24-27, 1:30-3 p.m. (ages 8-10)

“Iron Chef” Cooking Competition
Are you competitive in academics and athletics? How about cooking? Now we have created our own version of Food Network’s popular cooking show. Kids will spend two days practicing the kitchen skills, ingredients, equipment and the cooking know-how they need to take on their fellow chefs. Then during the last two days, the competition begins! Each team will be given the ingredients for an appetizer, main entrée, and dessert and they have to make their own creation in a specific time period. The instructor will judge the dishes for taste, appearance, and creativity. Everyone is a winner!
Materials fee: $10.
Camp #4007 M-Th, July 24-27, 10:45-12:15 p.m. (ages 11-13)
Creative Fun

Act it Out! Drama Workshop

This camp is an introduction to the wonderful world of theater where you can explore your creativity and build your confidence! The camp will combine acting, theater games, activities and storytelling. You will discover different kinds of theater, including drama, comedy, and improvisation just like on “Whose Line is It Anyway?” Budding actors will have the opportunity to practice their stage presence and voice projection in Chabot’s beautiful Performing Arts Center. You will give a performance for your parents during the last session of camp.

Instructor: Linda Landeros is a graduate of the Chabot College theater arts program. She is bilingual.

Camp #4008  M-Th, July 10-13, 10:45 a.m.-12:15 p.m.  (ages 8-10)
Camp #4009  M-Th, July 17-20, 10:45 a.m.-12:15 p.m.  (ages 11-13)

Hip-Hop Dance

In this fun-filled, high-energy class you will learn dance moves like the ones you see on popular music videos featuring Jennifer Lopez, Usher, and Destiny’s Child with the latest sounds in rap, R&B and pop music. Hip hop encompasses specific movements but also allows room for freestyle movements so you can develop your own sense of style. You will perform a routine for your friends and family on the last session of class. No dance experience necessary. Wear comfortable clothes and shoes you can dance in.

Instructor: Shanna Otterstetter has been studying and teaching hip hop for more than 10 years.

Camp #4010     M-Th, July 10-13, 10:45 a.m.-12:15 p.m. (ages 11-13)
Camp #4011     M-Th, July 17-20, 10:45 a.m.-12:15 p.m. (ages 8-10)

Be a Cheerleader!

Attention all future cheerleaders… Give me a C-H-A-B-O-T! Come to camp and learn cheers, dances, and helpful tips that will help you when it comes time to try out. You will work on everything from basic techniques to choreographed cheer routines taught by members of the Chabot College Cheerleading Squad who will give you first-hand knowledge on what it takes to be cheerleader. You will “compete” for your parents at the end of the last camp session.

Camp #4012 M-Th, July 24-27, 1:30-3 p.m.  (all ages)

Karaoke Idol

You won’t have to stand in long lines and audition for this musical reality show. All you have to do is enroll! In our own version, you will choose your own songs, compete with other potential stars, and sing songs following the music and words on the screen—or come up with your own song. Throughout the week you will sing specific kinds of songs like rock or rap and compete in groups, just like on TV. The big difference with our version of the show: everyone is a big winner (and there is no Simon). Host: No, not Ryan Seacrest but Chabot’s own Ian Gottlieb, program director of Chabot’s radio station KCRH-FM 89.9.

Camp #4013 M-Th, July 10-13, 1:30-3 p.m.  (ages 11-13)
Camp #4014 M-Th, July 17-20, 1:30-3 p.m. (ages 8-10)

Write Your Own Movie Script

Have you ever gone to the movies and thought, “Hey I can write a better script than that!” Well, here’s your chance to give it a try! In this unique and creative camp, you will watch clips from some of the most successful, blockbuster movies and then discuss them and pick out some of the main elements of screenwriting, including plot, setting, action sequences, characters, dialogue, and more. You will also look at pages from actual movie scripts. Using lots of screenwriting tips you will learn, you will then create your own movie scenes and even have the opportunity to act them out with your own hand-picked cast of volunteers!

Instructor Hilary Roberts has been helping Hollywood screenwriters improve their scripts for more than 15 years.

Camp #4015 M-Th, July 17-20, 1:30-3 p.m.  (ages 11-13)

Language & Communication

Language Arts (entering 3rd-4th grades)
Keep up with your language arts skills over the summer while having fun in the process. Each of the three classes in this Language Arts series includes individual and group activities, games, and projects. You will learn to use the thesaurus to discover new words to enhance your speech and writing, review grammar and parts of speech and using them for an exciting writing project, and learn to write the perfect paragraph, complete with topic sentences, transition words, and concluding sentences. Each week students will have projects to take home. Instructor: Casey Daniel is an elementary school teacher in Albany.

10:45 a.m.-12:15 p.m.
10:45 a.m.-12:15 p.m.

Language Arts (entering 5th-6th grades)
Put some pizazz in your writing by learning to get creative with adjectives, adverbs and prepositional phrases. Learn how to organize your thoughts and write a meaningful essay with a proper introduction and conclusion. Find out how many kinds of poetry there are—and that most of them don’t even have to rhyme! You’ll be amazed at what you can produce. Take one, two, or all three classes. Instructor: Jenny Kubicki is an elementary school teacher in Albany.

Language Arts (entering 7th-8th grades)
Get ready for all of your fall writing assignments ahead of schedule! This series of classes was designed as a general overview of reading and writing skills to enrich the academic experience over the summer. You will review grammar and vocabulary, participate in fun reading assignments, do some creative writing and short story exercises and practice descriptive writing, and learn about the different kinds of poetry—and write some of your own! Instructor: Rosa Landeros is an instructor at Chabot College and has a master’s degree in English. She is bilingual.

Fun with Spanish
During this series of camps you will not only discover the Spanish language but the richness of the Hispanic culture as well. You will learn typical Spanish phrases, days of the week, greetings, and numbers, and specific words to describe the hands-on activities you will be participating in. You will find out how to make piñatas and other Mexican crafts, see cooking demonstrations of traditional foods, like tortillas, (and taste samples!) and also enjoy a Mexican folkloric dancing demonstration and learn about famous Hispanics artists. Take one, two, or all three sessions. Instructor: Linda Landeros (all ages).

Learn Sign Language!
Through games and activities, you will get your first glimpse at a whole new way of expressing yourself. You will learn the American Sign Language alphabet so you can form your own words and find out how to sign subjects like pets, food, family members, numbers, sports, and colors. You will enhance your learning through a number of hands-on activities like making masks and family scrapbooks, playing games, and enjoying “snack day.” Hand-outs will be included so you can keep practicing at home and teach your friends and family! Instructor: T.J. Ovida de Julia teaches sign language at Castro Valley High School.

Camp #4028
M-Th, July 24-27, 10:45 a.m.-12:15 p.m. (all ages)

Register by mail, fax (510-723-6795) or e-mail: chabotcom@chabotcollege.edu
# Kids on Campus - Summer Camps 2006

## Math & Computers

### Elementary Math (entering 3rd-4th grades)
Get ready for the fall by reviewing math skills—but without homework or tests! Brush up on your multiplication facts by learning and playing games that focus on memorization and patterns, work on an art project that will make fractions a breeze, and become familiar with factors while doing a hands-on project based on square numbers. **Instructor: Casey Daniel**

**Multiplication Marathon**
- **Fun with Factors**
  - Camp #4029
  - M-Th, July 10-13
  - 9-10:30 a.m.

- **Funky Fractions**
  - Camp #4031
  - M-Th, July 24-27
  - 9-10:30 a.m.

### Elementary Math II (entering 5th-6th grades)
Did you know that math can be fun? Take one, two, or three of these classes and you will soon find out it's true. You will review the basics of fractions and do a creative art project to make it easy, go over important concepts of geometry through a variety of activities, and use money and in-class "shopping trips" to learn about place values, decimals and percents. **Instructor: Will Trill and Marisol Landeros teach math in the Hayward Unified School District (bilingual).**

**Fantastic Fractions**
- **Gear up for Geometry**
  - Camp #4032
  - M-Th, July 10-13
  - 9-10:30 a.m.

- **Money Madness**
  - Camp #4034
  - M-Th, July 24-27
  - 9-10:30 a.m.

### Middle School Math (entering 7th-8th grades)
Through games and activities, like "Math Jeopardy," you will review the basic definitions of numbers (integers, rational, real, prime, etc.), brush up on the order of operations and how to combine like terms, review simple methods for solving equations, and do activities based on graphs, as well as the number line coordinate system. Worksheets based on each day's work will be taken home each day. **Instructors: Will Trill and Marisol Landeros teach math in the Hayward Unified School District (bilingual).**

**Incredible Integers**
- **Exciting Equations**
  - Camp #4036
  - M-Th, July 10-13
  - 9-10:30 a.m.

- **Great Graphs**
  - Camp #4037
  - M-Th, July 24-27
  - 9-10:30 a.m.

### Computer Camp
Learn how software, the internet, and a variety of tips and tricks can enhance your communication with your friends as well as improve your schoolwork. You will learn to type faster and more accurately to respond quicker to Instant Messages (and get reports finished faster), learn to design your own personal website using photos and graphics, and get an overview of software programs like Microsoft Word. You will also find out the best websites to use to research your school assignments and be given some practice research assignments to see who can find the answers first! **Instructor: Rosa Landeros teaches computer science at Chabot and is bilingual.**

- **Camp #4038**
  - Mon-Th, July 24-27, 9-10:30 a.m. (ages 11-13)

- **Camp #4039**
  - Mon-Th., July 17-20, 9-10:30 a.m. (ages 8-10)

For information, call (510) 723-6665 or (510) 723-7531

## Space & Science

### Red-Hot Robots
Come and discover the roles robots can play and the amazing things they can do. Explore the science of circuits and learn how robots “sense” the world around them. Learn to operate robots that hear, robots that play soccer! Program a robot to negotiate a maze or obstacle course. Use your new engineering skills to build your own robot and take it home with you. **Instructor: Staff of Mad Science of the Bay Area.**

**Materials fee:** $10.

| Camp #4040 | M-Th, July 17-20, 1:30 -3 p.m. | (all ages) |

### Chemistry Detectives
Take a walk on the wild side in this crazy week of sleuth science. Have a ton of fun as we whip up potions and experiment with all kinds of chemical reactions, including growing our own crystals, making sidewalk chalk, and a chromatography t-shirt to keep. Mix it up as we experiment with molecular madness, radical reactions and “fizz”ical and chemical reactions. Discover what those crazy chemists are really up to in their laboratories. Then use everything you’ve learned to solve the Mad Science Mystery; even Sherlock couldn’t figure this one out! **Instructor: Staff of Mad Science of the Bay Area.**

**Materials fee:** $10.

| Camp #4041 | M-Th, July 24-27, 1:30 -3 p.m. | (all ages) |

### 3…2…1…Blast Off!
Brave young astronauts will explore the mysteries of the solar system and the science behind air and space travel. Students will learn how scientists study the planets and stars and what kinds of tools are used for space exploration. Children will discover not only how astronauts get into space, but also how they live and work once they get there. Learn about gravity, propulsion and the basics of rocket science through fun, hands-on activities. Experiment with balloon rockets and make your own air rockets and model rockets that you can take home! **Instructor: Staff of Mad Science of the Bay Area.**

**Materials fee:** $10.

| Camp #4042 | M-Th, July 10-13, 1:30-3 p.m. | (all ages) |

### Planetarium Camp
Would you like to view the stars and planets and listen to space-age music as the sky moves above you? Take this camp and you will not only discover the night sky but find out much more about the mysteries of the universe. In this fun and educational look at space you will not only spend time in the planetarium but also participate in lots of exciting hands-on activities. You’ll also enjoy tasty refreshments right from outer space like Moon Pies, Milky Ways, and Starburst. **Instructor: Tim Dave, Chabot College astronomy and physics instructor, loves to answer kids’ questions about space.**

| Camp #4043 | M-Th, July 24-27, 1:30-3 p.m. | (all ages) |

### LEGO Robotics
Welcome all you novice robotics builders! In this hands-on camp you will learn to build and operate self-contained robots using LEGO building materials. You will learn basic programming, experiment with robot designs to solve realistic problems, learn critical thinking and problem solving skills, and learn to work together as a team. Students will take home their robots (minus the programmable “brain”) to work on at home. **Instructor: Jerry Egusa is a Chabot College faculty member.**

**Materials fee:** $30.

| Camp #4044 | M-Th, July 10-13, 9-10:30 a.m. | (ages 11-13) |

Register by mail, fax (510-723-6795) or e-mail: chabotcomed@chabotcollege.edu
Super Saturdays

Guitar for Kids
Do you have a talent for playing "air guitar?" Well, now you can get an introduction to the real thing in this six-week guitar class. You will learn note reading, chords, and the "tablature" system of playing the guitar. By the end of the class you will be able to impress your family and friends with easy-to-play songs. Must bring a guitar (guitars can be rented at local music stores). Ages 8-13. Instructor: Bruce Brill.

Materials fee: $10, payable to instructor, for sheet music and handouts.
Course #4045 6 Sats., July 15-Aug. 26, 11 a.m.-12:15 p.m. Room 318 $65

Intro to the Harmonica
(See description on page 20)

All About Cars
Now you can learn how to take care of your car even before you get one! You'll be way ahead of the game—and the envy of your friends. In Chabot's own auto technology lab, complete with actual cars and trucks the students work on, you will get an overview of the parts and systems of a car, including the engine, fuel, electrical, drive train, brakes, and suspension systems. You will also get tips and demonstrations on how to maintain your car to avoid future problems, like changing the oil on a regular basis. There will be plenty of handouts to take home and keep for future reference. Instructor: Manuel Franko. Ages 12-adult, male AND female.

Course #4047 Saturday, July 15, 11 a.m.-4 p.m. Room 1418 $55

How to Get Natural A's
Any student can significantly enhance grades, self-confidence, and chances for scholarships and college admissions by performing academic skills aligned with the brain's natural patterns. This will make note-taking, reading, studying, memorizing, and test-taking amazingly efficient. Also discover simple methods for understanding math and other subjects, optimize focus and concentration, and prevent test anxiety. Ages 12 to adult. (Parents can enroll too!)

Materials fee: $30
Course #4048 Sat., Aug. 5, 9 a.m.-noon Room 315 $39

Sports Camps

Co-ed Basketball
Develop your basketball skills through a series of fun drills and games. You will focus on different areas of the game: offense, defense, dribbling, shooting, and passing. In addition to the basic skills, several elements of team play and strategy will be covered. Good sportsmanship will be emphasized. Ages 8-16.
Instructor: Chabot assistant coach Marisol Tostado.
Course #4049 4 Sats., July 8-July 29, 9:30-11:30 a.m. Gym $65

Soccer
This camp offers kids ages 5-17 the opportunity to develop the game of soccer with focused attention in kicking, dribbling, heading, shooting, defensive drills, defense techniques, and increasing overall physical stamina. The camp includes strategy sessions, video playback, and organizational exercises. Ages 5-6 half day only, ages 7-17 half day or full day. Instructor: Chabot College soccer coach Tony Igwe. For more information, call him at (510) 723-6788.
Course #4050 Mon.-Fri., July 24-28, 9 a.m.-noon/9 a.m.-3 p.m., $150/$200 • Ext. Care 7:30-9 a.m./3-5:30 p.m., $40/$40
Course #4051 Mon.-Fri., July 31-Aug. 4, 9 a.m.-noon/9 a.m.-3 p.m., $150/$200 • Ext. Care 7:30-9 a.m./3-5:30 p.m., $40/$40

Girls' Volleyball
This camp is designed for girls in middle school and high school to learn the fundamentals necessary to become competitive in volleyball. Players will learn the basic skills of hitting, setting, serving, passing, and digging in game-like situations. Teams will be divided by ability and age. Ages 12-17. Instructor: Amber Sammons, Chabot College volleyball coach.
Course #4052 M-Th, August 7-10, 5-7 p.m. Gym $65

For information, call (510) 723-6665 or (510) 723-7531
Kids on Campus – Summer Camps 2006

Teens on Campus - Summer 2006

Now teens have their own classes and their choice of any others in the catalog! Sign up for the following new summer workshops to help you prepare for the new academic year ahead. And look through the rest of the catalog to find others just for fun. We’ve suggested some possibilities you might be interested in.

Summer Algebra Review

Algebra can be tough, so it’s often helpful to get some reinforcement on past lessons before moving on to the next level. Take this four-session review and you will feel more clear and confident as you approach the next level of steps in the fall. You will review working with integers, absolute value, solving equations, combining like terms, order of operations, linear graphs, and many more concepts. You will be free to ask any questions about concepts you would like explained or reviewed. Questions you ask may help others in the class as well. This class is based on 7th and 8th grade California state standards.

Instructor: Marisol Landeros teaches math at Hayward Unified School District (bilingual)

Course #4053 M-Th, July 31-August 3, 9:30-10:30 a.m.  Age 12+  $49

Essay Writing Techniques for Success

Writing is the single most important skill you can have in school, in your career, and in life. In this four-session workshop you will develop and enhance your writing ability and become more confident about expressing your ideas. The class will cover all of the basic techniques for essay writing: selecting and developing a topic, creating an outline, writing a draft, and reviewing sentence and paragraph structure. We will also cover critical thinking skills. Each day you’ll have the opportunity to practice the skills you learn. Lots of handouts.

Instructor: Hilary Roberts has a Ph.D. in English from UC Berkeley

Course #4054 M-Th, July 31-August 3, 10:30 a.m.-12:30 p.m. Ages 13+  $79

Personal Narrative Writing for the College Application

Here’s an opportunity for college-bound high school juniors and seniors or transfer students to learn how to write a unique, dynamic personal narrative to prepare for your college application essay. At the same time, you’ll learn techniques that will benefit all the writing you do—from school assignments to the upcoming SAT essay. You’ll have the chance to practice writing portions of a personal essay and view samples of others. At the end of the workshop, you should have a great start to a personal statement that will lead admissions officers to welcome you to their college! Hand-outs included. Instructor: Hilary Roberts has a Ph.D. in English from UC Berkeley.

Course #4055 M-Th, July 31-August 3, 1-3 p.m. Ages 15+  $79

How to Get Natural A’s

Any student can significantly enhance grades, self-confidence, and chances for scholarships and college admissions by performing academic skills aligned with the brain’s natural patterns. This will make note-taking, reading, studying, memorizing, and test-taking amazingly efficient. Also discover simple methods for understanding math and other subjects, optimize focus and concentration, and prevent test anxiety. (Parents can enroll too!) Instructor: Curtis Adney has a law degree from Brigham Young University and graduated at the top of his college class. He presents numerous academic seminars throughout California.

Materials fee: $30

Course #4056 Sat., August 5, 9 a.m.-noon Ages 12+  $39

Notary Public Workshop & Exam

California is in great need of notaries to serve its growing population! Now you can become a notary public in just one day by taking this intensive course and passing the state exam we have scheduled after class for your convenience. When you become a notary, you will become a more valuable employee, bring in additional income, and can even start your own business (see Build Your Notary Public Business below). This course is also for California's existing notaries who now need to get instruction and take a state exam in order to renew their commissions.

You will learn the functions and duties of a California Notary Public with a focus on how to pass the California Notary examination. The class will cover understanding and interpreting the codes; the duties of a notary; how to notarize a document; bonding and insurance; oaths and affirmations; spotting fraud; and identification issues. There will be a practice exam, followed by students receiving a Proof of Completion that allows them to take the State-proctored notary examination. Students will need to bring proper photo ID (currently valid or issued within the last five years: any state driver's license or ID card, U.S. Passport, activity duty military ID), a sack lunch, black-ink pen and two #2 pencils.

Materials fee: $25, payable to the instructor, for comprehensive workbook of notary materials.

Jed Gladstein is an attorney, educator, and commissioned California Notary Public, teaching this state-approved notary course in colleges throughout California. He consistently receives rave reviews from his students, nearly 100 percent of whom pass the state exam after taking his class.

Optional State Exam

The optional State California Notary Public Examination will be given immediately following the class. Students who wish to take the exam must bring a photo ID, a check or money order (no cash) for $40 payable to Secretary of State, a pen and two #2 pencils. (The exam can also be taken at a later date at official state testing locations.)

Course #4057
Saturday, June 10
7:45 a.m.-5 p.m.
Room 600
$89

Build Your Notary Public Business: Become a Loan Signing Specialist

Want to find out how to build a lucrative business out of being a notary public? California's booming real estate industry is in great need of notaries who are loan-signing specialists. If you are now a commissioned Notary Public or planning to become one, take this class and find out how to build and maintain your own business. The instructor will present information on the duties and responsibilities of the Notary Public as a Loan Signing Specialist and will provide the student with the education and skills to be successful in this industry. Upon completion of the class, the student will be eligible to take the open book examination (optional) and receive a Certification as a Loan Signing Specialist for passing the exam.

Material fees: $35, payable to instructor, for Loan Document Signing Study Guide and optional $30 for Open Book Certification Examination.

Jed Gladstein
Course #4059
Saturday, July 15
8 a.m.-4 p.m.
Room 600
$79

How to Become a Loan Officer

Qualified loan officers are in great demand! In this class you will learn how to get started in the profession. You will learn what this career has to offer financially and professionally and how to take the first steps to finding a job. In addition you will learn the basics of a home loan, including how to:

- complete a loan application
- qualify a borrower
- read a rate sheet from a lender
- identify potential problems in a loan request
- find out what lenders are looking for

Harry Tse is a vice president and designated broker for Cal Bay Capital Inc. in Hayward and prior to that has been a loan consultant, senior financial analyst, staff analyst, and an auditor. He holds a bachelor's degree in accounting and finance.

Course #4060
Saturday, July 22
9 a.m.-noon
Room 916
$79

Online Courses in Business & Finance are also available.

Retirement Planning Today: It's Never Too Soon To Think About Your Future

It takes more than money to live a “rich life.” This course blends financial education with life planning to help you build wealth, align your money with your values, and achieve your retirement lifestyle goals. In this course, you will receive practical, easy-to-understand financial information and proven financial strategies to apply to your personal situation. You will find out how to manage investment risks, use new tax laws to your advantage, make informed decisions about your company retirement plan, and adjust your estate plan to function properly under the new laws. To try and meet everyone’s scheduling needs, this eight-hour course is offered twice: in a two-session course on Saturdays and in a three-session course on Thursdays.

Materials fee: $25, payable to instructor, for comprehensive binder of material.

Mary Grodin of Grodin Financial Services in San Leandro is a registered investment advisor and a Chartered Financial Consultant and Certified Funds Specialist.

Course #4061
Thursdays, June 1, 8, 15
6:30-9 p.m.
Room 828
$69

Course #4062
Saturdays, June 10 & 17
9 a.m.-1 p.m.
Room 916
$69

How to Use Your Home Equity to Make Money in Real Estate

In this informative workshop, you will learn how to:
• use your home equity to purchase up to 10 investment properties in the first year
• easily qualify with as little as 5-10% down payment
• purchase properties in the best locations, throughout the U.S., with excellent appreciation and long-term growth
• find reputable property managers for your properties
• retire in 5-10 years, with $10,000-$20,000 monthly tax-free income stream
• pay less taxes with real estate tax write-offs

Optional Materials fee: $39, payable to instructor, for comprehensive workbook.

Seewing Yee holds degrees in accounting and taxation and has been a financial planner and educator for the past 15 years. He conducts financial seminars throughout California and lectures extensively on the subjects of real estate, debt, credit, and financial planning.

Course #4063
Wednesday, July 12
6-10 p.m.
Room 916
$49

Successful Real Estate Investing for Women

Whether you are single, married, widowed, or divorced, this informational seminar will be beneficial. You can use this information for either personal reasons or if you want to go into real estate part-time and run a successful business requiring no special degrees, certificates, or skills. You will learn why real estate is an easy and quick way to achieve financial independence; how you can purchase and leverage into numerous rental properties with only a small down payment; how you can avoid taxes with real estate write-offs; how to manage your real estate portfolio with minimal effort; how to save for a down payment; how to determine the rate of return on rental properties…and much more. (Men are encouraged to attend!)

Optional Materials fee: $39, payable to instructor, for comprehensive workbook.

Seewing Yee
Course #4064
Monday, July 17
6-10 p.m.
Room 916
$49

Tax Secrets for Real Estate Wealth

This popular seminar is designed for experienced as well as first-time real estate investors who want to get a good understanding of real estate tax rules and financial planning strategies. By the end of this seminar you will walk away learning how to:
• maximize your use of universal tax exclusion on your principal residence
• increase your depreciation deductions in the first few years
• qualify for the home office deduction as a landlord
• maximize your car, travel and transportation deductions
• use the latest tax planning strategies in your real estate holdings

Optional Materials fee: $39, payable to instructor, for comprehensive workbook.

Seewing Yee
Course #4065
Wednesday, July 19
6-10 p.m.
Room 916
$49
### Summer 2006

#### Community Education

### Computers

#### Learn to Type Faster!
Are you still using the two-finger “hunt and peck” method of typing? In this computer age, it is essential that you know how to type quickly to keep up with the rest of the world! Whether you are a student trying to type reports and “Instant Message” your friends or an adult who is frustrated at how long it takes to type letters and key-in online forms, this class is for you. In just one day you will build your speed and create fun documents.

**Rosa Landeros** has degrees in English and computer technology and 15 years experience working with computer programs and applications. She teaches computer applications at Chabot College and is bilingual.

**Course #4066**  
Saturday, July 8  
9 a.m.-noon  
Room 301  
$39

#### Computer Basics: Starting from the Beginning
If you feel like you are the only person left on earth who doesn’t know how to use a computer, take this class and meet some others. By the end of this class, you will have learned to use a keyboard and mouse, work with your computer “desktop,” use the “menu” and “tool bar,” organize your files, and create, print, and save a simple document. If you have put off learning about your computer, now is the time. Seniors welcome!

**Rosa Landeros**  
**Course #4067**  
Saturday, July 8  
12:30-3:30 p.m.  
Room 301  
$39

#### Intro to Internet Explorer and E-Mail
Find out all the ways the Internet can make your life easier, from looking for a job to finding recipes. You will create an email account and practice sending email to your friends and family. This easy-to-understand lecture and hands-on class will cover how to:
- set up a free e-mail account
- explore the most popular and useful sites
- go on a virtual job search
- send attachments (if time permits)

**Rosa Landeros**  
**Course #4068**  
Saturday, July 15  
9 a.m.-noon  
Room 301  
$39

### Beginning Microsoft Word
Come and learn how to use Word, the most popular word processing program on the market. This class is designed for the beginning student and will cover creating, saving, and printing documents; cutting, copying and pasting text, and other functions if time permits. Prerequisite: Some knowledge of the PC and basic typing skills. (Note: Advanced level of Microsoft Word will be offered in Fall 2006 semester).

**Materials fee:** Please bring one blank 3-1/2” high-density diskette or USB drive.

**Rosa Landeros**  
**Course #4069**  
Saturday, July 15  
12:30-3:30 p.m.  
$39

### Beginning Microsoft Excel
This course is designed for students who want to gain the skills necessary to create, edit, format and print basic Microsoft Office Excel worksheets. You will learn to:
- create and format a worksheet
- perform calculations
- develop a workbook
- print the contents of a workbook

**Materials required:** Please bring one blank 3-1/2” high-density diskette or USB drive. (Note: Advanced level of Excel will be offered in Fall 2006 semester.)

**Rosa Landeros**  
**Course #4070**  
Saturday, July 22  
9 a.m.-noon  
Room 301  
$39

### Online Courses in Computers
are also available

- Computer Skills for the Workplace
- Microsoft Access
- Quickbooks
- PC Troubleshooting
- Windows XP
- Adobe Illustrator
- Flash MX
- Intro to Dreamweaver
- Basic A+ Certification Prep
- Microsoft Front Page
- Microsoft Publisher
- PC Security

Belly Dancing
Remove the daily stress from your life and enjoy a low-impact workout with Middle Eastern dance. This is intended for all body types, genders, and for all ages. Classes will include a yoga warm up, a low impact work out, and belly dancing! The class will learn Middle Eastern movements and rhythms with focus on understanding the different dance styles. This class will also begin to use dance props and work with zills (finger cymbals). Ages 12 and up.
Rachelle Karpeles is passionate about dancing and loves to teach and perform many styles of Middle Eastern dance.
Course #4071
7 Tuesdays, June 13-August 1 (no class July 4)
7:15-8:30 p.m.
Building 2300, Mezzanine
$75

Salsa Dancing
Have fun and get a great workout at the same time by learning this popular Latin dance. In this step-by-step course, you will learn the basics without feeling intimidated. First you’ll warm up, and then learn each step by repetition, continually adding new steps until you’ve learned a full dance combination. You will have a chance to incorporate your own style and expression. Both singles and couples are welcome. Hand-outs are included so you can practice at home!
Ermelita DeLeon is a dance instructor who has been dancing most of her life and loves to teach others.
Course #4072
4 Saturdays, June 17-July 8
1-3 p.m.
Room 2728
$75

Ballroom Dancing: Foxtrot, Rhumba and West Coast Swing
Join in the fun, excitement, and fitness that ballroom dancing offers to your lifestyle. This introduction to ballroom dancing will include basic steps for some of the most popular ballroom dances: the foxtrot, rhumba, West Coast Swing and more. The emphasis in the course is on learning the techniques of the basic moves in the different dance rhythms. Compare prices with popular name-brand dance studios—this one is a fraction of the cost. Singles and couples are welcome. Hand-outs are included so you can practice at home!
Ermelita DeLeon
Course #4073
4 Saturdays, July 15-August 5
1-3 p.m.
Room 2728
$75

Beginning Flamenco Dancing
This is a fun introduction to the exciting palos (rhythms) of Flamenco music. Basic Flamenco rhythms and technique, including brazeo (armwork), floreo (hands), and taconeo (footwork) will be taught and gradually built upon as students work towards an informal showcase premiering the palo of tangos. Previous dance experience is not necessary. Please bring shoes with sturdy heels. Teenage to adult.
Vanessa “Vane” KoneffKlatt has been dancing and teaching for more than 10 years and continues to perform at different venues in the Bay Area. She recently graduated from UCLA with a bachelor’s degree in world arts and cultures, with a dance concentration. She has also studied in Madrid at Amor de Dios and loves to share her skills and knowledge with others.
Course #4074
6 Saturdays, June 17-July 22
3:30-5 p.m.
Room 2728
$75

Intro to the Harmonica
If you’ve always wondered how those amazing sounds come out of a harmonica, here’s your chance to learn. This class will focus on both playing and having fun as you are introduced to many of the tricks and techniques to make the harmonica cry, laugh, wail and scream. No previous musical experience or harmonica training is required—only the desire to learn! Students will need a ‘C’ major diatonic harmonica. Instructor will have them available in class for $11 if you don’t have one. Ages 12 to adult.
Materials fee: $13, paid to instructor, for instructional CD and handouts.
Dave Broida has been teaching and performing for 20 years at colleges and recreation programs throughout northern California.
Course #4075
Saturday, August 5
2-5 p.m.
Room 317
$39
Beginning Flute
Whether you played the flute when you were younger and want to start where you left off or have always been interested in learning how to play the flute but never got around to it, here's your chance. In this class, you will learn to play the flute and also learn the fundamentals of music. Aspiring flute players will learn healthy practice habits such as posture, breathing, tone production, and fingering and also become familiar with music history, rhythm, theory, and composers. You can bring your own flute or rent one from a local music store. Ages 14-adult.
Materials fee: $20, payable to instructor, for music book.
Daria Terleck has a master's degree from the San Francisco Conservatory of Music and a bachelor's degree from the Oberlin (Ohio) Conservatory of Music and has performed in concerts and music festivals throughout the country.
Course #4076
6 Tuesdays, June 20-August 1 (no class 7/4)
6:30-7:30 p.m.
Room 902
$79

Play the Saxophone!
If you've always wanted to play the sax, or want to come back to it, this is the place for you! You might not gain the popularity of our former saxophone-playing president, but this class will present the basics of good tone and technique and will teach you how to read music, understand key signatures, and the basics of improvisation-plus, you'll be able to play a few tunes to impress your friends! We will talk about jazz and blues and there will be an emphasis on playing in groups. (Saxophones can be rented at local music stores). Ages 14 to adult. The required book will be announced on the first day of class.
Materials fee: $2 for CD of sample recordings for students to take home.
Victor Carvellas has studied music and performed in bands for most of his life He is currently in the Chabot College Wind Symphony. Besides the saxophone, he plays the flute, piccolo, clarinet, recorder, guitar, electric bass, and keyboards.
Course #4077
6 Mondays
June 19-July 24
6:30-7:30 p.m.
Room 402
$79

Beginning Guitar
This is a beginning class taught by an East Bay veteran guitar player who will teach you the basic chords, strums, finger-picking, and tablature in a non-intimidating environment. You'll also learn about different styles of music that can be played on the guitar, including classical, jazz, rock, country, and flamenco. Students will play solo and in groups of two and three. Reading music is not a requirement. Just bring a guitar. Ages 14 to adult. (Notes: Guitar for Kids is also offered, see page 14. Beginning Guitar II will be offered in the Fall 2006 semester).
Materials fee: $10 for sheet music and handouts.
Bruce Brill studied music at the Berklee School of Music in Boston, has a degree in guitar performance from Cal State Hayward, and has studied with some of the top guitar players in California.
Course #4078
6 Saturdays, July 15-August 26
(no class 8/12)
12:45-2 p.m.
Room 318
$75

Sing in Barbershop-style:
Join the New Dimensions Chorus
Do you love to sing and are looking for others to share that experience with? The New Dimensions Chorus is a group of beginning to advanced-level singers who perform four-part a cappella harmony in the barbershop style, including gospel, patriotic, holiday, and standard songs. The group provides a friendly venue for developing one's natural voice instrument and singing presence through vocal training sessions. These ongoing sessions can lead to voluntary outside chorus experiences at festivals and holiday sing-outs throughout the community.
James Hall is the music director of the New Dimensions Chorus and Demaster Survine IV is the vocal coach. For more information, go to www.ndchorus.com or call Ed Ocampo at (510) 881-8855.
Course #4079
Thursdays, starting June 22
(Open enrollment throughout the year)
7-10 p.m.
Room 1232
$49 first-time semester fee
$29 per semester continuing fee

For information, call (510) 723-6665 or (510) 723-7531
Let’s Make Sushi!

If you love sushi and wish you could make it yourself, come and join us for a look into one of Japan’s renowned culinary specialties. We will cover sushi preparation and production of several different kinds of sushi. Come prepared for a hands-on experience! After watching a demonstration, each participant will have a work station and ingredients at their table and will make (and eat!) their own creations. This is a fun class with lots of group participation.

Materials fee: $15 for food, chopsticks, and sushi mat.

Patricia Sandoval owns P.S. Scrumptious, a cooking school and catering business in Kensington. She taught a sushi class in this program in the spring and has many other specialties. She will offer a series of classes in the fall, including soul food and desserts.

Course #4080
Saturday, July 22
10 a.m.-noon
Room TBA
$40

Conversational Spanish I

Do you want to communicate more effectively when traveling to a Spanish-speaking country, dining in a restaurant, or conversing with customers on the job? This class for beginners will emphasize listening and speaking skills, as well as comprehension. You will learn pronunciations, greetings, introductions, numbers, telling time, giving directions, and simple verbs. You’ll learn everyday words and common phrases that will help you in many situations. In this friendly, relaxed atmosphere you’ll get to know your classmates and plan a fiesta for the end of the class!

Required textbooks: Spanish Visual Language Guide by Barón’s and Spanish Made Simple by Jackson & Rubio.

Ilva Salamanca is a Spanish instructor at Chabot College and previously coordinated bilingual programs in Central and South American countries.

Course #4081
8 Mondays, June 19-August 7
6:30 p.m.
Room 320
$99

Learn to Shoot Great Videos!

Whether you’re making a home video about your kids or a corporate presentation, it’s easy to improve your shooting by learning some of the tricks of the trade from an award-winning independent film producer. In this class you will shoot a variety of scenarios and the instructor will critique the results as it’s played back on the college’s high-tech equipment. Students must have their own camcorder or work with another student who has one. Digital video camcorders are preferred but not necessary.

Jim Culp is an adjunct instructor at Chabot College teaching television production and digital video editing and has taught at colleges throughout the Bay Area. He has more than 25 years experience as an independent producer of film and video programs for PBS and cable and was included in an Emmy and Peabody Award for two television series he worked on as producer/director.

Course #4082
2 Saturdays, July 8 & 15
9 a.m.-1 p.m.
Room 1615
$79

Learn to shoot AND edit great videos by taking both of these classes and get a 10% discount.

How to Edit Your Videos

This class will introduce budding home video enthusiasts to the exciting world of digital video editing. Once you know how to shoot great videos, learn how to edit them to perfection leaving only the best scenes and even adding music to it. You will work in the college’s high-tech Mac Lab, using the versatile “iMovie HD” editing program and edit 3-5 minutes videos that you can screen for your friends and family on videotape or DVD. You are welcome to bring any existing videos from home to work on. (Macintosh experience is not required to take this class.)

Jim Culp

Course #4083
2 Saturdays, July 22 & 29
9 a.m.-1 p.m.
Room 1615
$79

Personal Interest

What Were You Born to Do?
Finding Your Natural Talent
Find out which of 33 natural talents is the subtle, yet powerful source of your highest potential. Expressing your natural talent ignites passion-rentlessly pursuing it evolves into your destiny. Elvis, Einstein, and Oprah are just three examples of people who were just ‘doin’ what comes naturally.’ So come discover YOUR natural talent—how to develop it, how to apply it to all aspects of life, and why it is the course of everything you desire.

Materials fee: $30, payable to the instructor for hand-outs and CD. Curtis Adney has a law degree from Brigham Young University and graduated at the top of his college class.

Course #4084
Saturday, August 5
2-5 p.m.
Room 315
$39

How to Get Natural A’s
Any student can significantly enhance grades, self-confidence, and chances for scholarships and college admissions by performing academic skills aligned with the brain’s natural patterns. This will make note-taking, reading, studying, memorizing, and test-taking amazingly efficient. Also discover simple methods for understanding math and other subjects, optimize focus and concentration, and prevent test anxiety. Ages 12 to adult. (Parents can enroll too!)

Materials fee: $30 (includes comprehensive work-sheets and CD)

Course #4085
Saturday, August 5
9 a.m.-noon
Room 315
$39

All About Cars
This course is for the average car owner who is unaware of what goes on beneath the hood. Through lecture and demonstration, you’ll get an overview of major components and systems of your car, including the engine, fuel, electrical, drive train, brakes, and suspension systems. You’ll also learn basic preventative maintenance to keep your car running smoothly and save money. This is also a great course if you don’t have a car—or even a license. You will be ahead of the game when you get both of them. 12 to adults.

Manuel Franko teaches auto technology and is an auto mechanic in San Leandro.

Course #4086
Saturday, July 15
11 a.m.-4 p.m.
Room 1418
$59

Dining Decorations:
How to Entertain in Style
Do you love to host dinner parties but need new decorating techniques? Take this class and you will walk away with tons of ideas you can adapt to every dining occasion, from brunches to midnight suppers! We will take the decorative elements of entertaining—table settings, buffet tables, garnishes, place cards—and explore new and easy ways to create them. The second half of class will be a hands-on workshop and students will be able to take home their own creations. Please bring a cutting board and paring knife.

Materials fee: $10, payable to instructor

Helena Weiss-Duman plans a wide range of events for UC Berkeley, including graduations, reunions, galas, walk-a-thons, seminars, fundraisers, and board meetings. In her spare time, she enjoys planning neighborhood block parties, non-profit fundraisers, family celebrations, and birthday parties for her own children.

Course #4087
Tuesday, June 27
7-9 p.m.
Room 302
$29

Take It Online!
We have more than 300 online courses, from Accounting to Medical Terminology. For more information, go to pages 23-24 or go to www.ed2go.com/chabotcomed to register online

Online Courses

Online Computer Courses - Summer 2006
Courses start each month: May 17, June 21, July 19, August 16, September 20
Update your computer skills, discover a new talent, or begin a new career path at your own pace and at your convenience with one of our new instructor-led courses. By contracting with Education to Go, we can offer more than 300 courses in everything from computers, Internet, writing, personal enrichment, test prep, business, legal studies, and health care. Each course runs for six weeks and consists of 12 lessons. The courses include interactive quizzes, assignments, tutorials, and online discussion areas. All you need is Internet access, an e-mail address, and a Web browser.

Online Instruction Center
To learn more about our online courses, visit our Online Instruction Center at www.ed2go.com/chabotcomed. You will find complete course descriptions, lesson outlines, evaluations from former students, course requirements, instructor credentials, and a demo course.

Requirements
All courses require Internet access, e-mail, Netscape Navigator, or Internet Explorer. Some courses may require additional software or have other requirements not listed. Before registering for any course, go to our Online Instruction Center and read the complete requirements for that course.

How to Get Started
• Visit our Online Instruction Center at www.ed2go.com/chabotcomed. Click the Orientation link and follow the instructions to enroll and pay for your course (either by credit card online through Ed2Go or check/credit card through Chabot College by calling (510) 723-6665). During orientation you will be provided an opportunity to choose the name and password you will use to access your course. This step is important! You cannot access your course until you complete orientation.
• When the course is scheduled to start, return to the Online Instruction Center and click the Classroom link. To begin your studies, simply log in with the name and password you provided during orientation.

Below is just a sample of the more than 300 courses offered. Go to www.ed2go.com/chabotcomed to find a complete list of classes, descriptions, instructor bios and step-by-step lesson plans in each category.
