Assistant Online Marketing Manager

Looking for organized and creative type person for small digital marketing agency

Train in all aspects of online marketing while you help with supporting our clients projects, communicating with outside vendors, directing creative projects, reporting, and project managing.

Skills you need:
Well versed using internet for shopping, social, communications.
Basic computer skills.
Solid communication skills both verbal and written.
Well organized and able to multitask and be a strong project manager.
Desire to excel and achieve great results and rewards.
Marketing Degree

What you will get:
Learn about SEO, SEM, email marketing, and other ways to drive visitors.
Become familiar with using tools such as Google Analytics to understand how a web site is performing and can be improved.
Get great experience working on client projects and seeing results, share in the success.
Potential for ongoing role, high levels of responsibility, and ongoing growth. Work closely with senior management, learn from established successful marketers.

To Apply:
Email your well-written cover letter, resume and marketing samples to david@businesscalcium.com with the subject line: “Assistant Online Marketing Manager: <Your Name>”.

We will be accepting applications and will contact shortlisted candidates via email for an interview. As we are super busy, we will not appreciate being contacted for any reason and will not see that as initiative on your part. We will only contact those who we wish to move forward with.

Pay rate: $15 – 20 per hour
