Entry Level Engineering Field Technicians  
In House 3-Week Paid Training Program  
ACI Level I, ICC and Nuclear Gauge Certifications

Krazan & Associates, Inc. is a prominent engineering firm which specializes in geotechnical engineering, construction materials testing and environmental services that has been ranked in the Top 500 Engineering Firms nationally by Engineering News-Record since 2001. Many national clients recognize us as the company of choice in the Western US. We have been in business since 1982.

We currently have immediate opportunities for entry-level Engineering Field Technicians to work for our Construction Testing and Inspection Offices located in Pleasanton, Sacramento, Modesto, Clovis, and Bakersfield, California. Engineering Field Technicians perform continuous inspection of Construction Quality Control of Mass Grading Operations and use nuclear and/or sand-cone methods for field testing. Technicians submit daily written and verbal reports to the local jurisdiction, notifies contractor and designer of discrepancies when they occur (or if not corrected).

All candidates must be insurable under our company vehicle policy and must be able to work safely in a construction environment. Candidates will be REQUIRED to obtain a Nuclear Gauge Operator Certification, American Concrete Institute (ACI) Level 1 Certification and an International Code Council Certification, through our in-house professional certification training program. The paid 3 week training program will be held in our Branch office in Pleasanton, California. As a Trainee you will earn minimum wage but once you have successfully completed the training program you MAY be offered a regular full time position in one of our branch offices at a higher rate of pay with benefits.

REQUIREMENTS
The ideal candidate must enjoy working outdoors. Candidates must have reasonable math skills including the ability to add, subtract, multiply, and divide in all units of measure, using whole numbers, common fractions, and decimals. Candidates must have the ability to read and interpret documents such as safety rules, operating and maintenance instructions, procedure manuals, project specifications and project plans. Successful candidates will be required to write routine reports and correspondence.

While performing the duties of this job, the employee is frequently required to stand, walk, reach, climb, talk and hear on typical construction jobsites. The employee is occasionally required to sit and stoop, kneel, crouch or crawl. The employee must regularly lift and/or move up to 50 pounds and occasionally move up to 75 pounds.

For more information, please contact Sylvia or Gwen in our HR Department. To apply please send your resume via Fax to 559-348-2165 or Email to hr@Krazan.com. Employment Application can be found on our company website: www.krazan.com.

Krazan & Associates is an equal opportunity employer (EOE) and drug free workplace.
