Looking for a fun, lively and exciting place to work? Spectrum of Science Foundation is looking for energetic, capable, fun, efficient, outgoing, individuals who are passionate about working with children and sharing a love of science to join our staff.... **Come make a difference!**

Spectrum of Science Foundation is a small company and constant attention to all details is a focus. Our curriculum encourages questioning, independent thinking and self discovery. Spectrum of Science Foundation’s mission is to provide hands on science for all elementary students using fun and interactive techniques and to offer superior customer service to students, parents and schools. Learning occurs when meaning is built on information the child already knows, thus changing information into knowledge!!!

Only someone with the following qualities need apply: dependability, creativity, patience, willingness to learn, work with children, and a fun, active attitude!

**Qualifications:**
1. Energetic, detail-oriented, organized self starter who can multi-task, find creative solutions and be flexible in a changing work environment.
2. Spanish/English bilingual applicants are encouraged to apply.
3. Enjoy working with children
4. Science knowledge not necessary we provide all materials, training and resources.
6. Must obtain DOJ fingerprint clearance

**Responsibilities:**
1. Work under the direction of the company owners
2. Prep, organize & inventory supplies
3. Teach or assist with classroom management, distribute supplies & clean
4. Other duties as assigned.

This is a part time job: 3 to 25 hours per week available

**Compensation:** $9-20/hr DOE

If you are interested in applying, please send a cover letter, references and resume describing your interest and qualifications. Please include resume in the main body of your e-mail.
