## Survey of Spring 2007 Degree and Certificate Graduates

This survey was given to 2006-07 degree and certificate graduates who attended the graduation ceremony in May 2007. It was filled out by 205 of the 300 graduates while they came to pick up their name cards, so it is more representative of those who attended graduation than of all 991 2006-07 graduates. However, it gives us a glimpse of the completion time, attendance patterns, and immediate plans of successful graduates. The bar chart below shows that 55 percent of these students completed their program within three years, although only 25 percent completed it within two years. The majority persevered to graduation by attending every term and attending mostly full-time, whether or not they were working. More than half of these graduates planned to work in Fall 2007, and nearly half planned to transfer to a 4-year college.
