

Chabot College
Course Success and Withdrawal rates, by Course Enrollments and Students
Fall 2000 to Fall 2019
Females

Chabot female students' success rates have remained stable at 67-69 percent in the past nine years, rising from an average 64-66 percent in early 2000's. Withdrawal rates dropped from 21-24 percent in early 2000's to 16-17 percent in recent years. Non-success rates (D, F, No Credit, No Pass, or Incomplete) have gone up slightly from an average of 12 percent during the early 2000's to 15 percent in Fall 2019. The percentage of students who withdrew from all their courses fell from 16 percent in the early 2000's to 10-11 percent in recent years. Compared to the early 2000's, females students are now more likely to stay enrolled in their classes, whether they are succeeding or not.

Chabot College

Course Success and Withdrawal Rates, by Courses and Students

Fall 2000 to Fall 2019

Males

Chabot male students' success rates have remained stable at 68-70 percent in the past nine years, rising from an average of 64-67 percent in early 2000's. Withdrawal rates dropped from 20-25 percent in early 2000's to 14-16 percent in recent years. Non-success rates (D, F, No Credit, No Pass, or Incomplete) have gone up slightly from an average of 13 percent during the early 2000's to 15 percent in Fall 2019. The percentage of students who withdrew from all their courses fell from 17 percent in the early 2000's to 8 percent in recent years. Compared to the early 2000's, male students are now more likely to stay enrolled in their classes, whether they are succeeding or not.
