Welcome. Dear Chabot Community Member,

Welcome to Fall 2023 Program and Area Review! PAR is on a three-year cycle (Fall 2021 is the comprehensive review and planning year; Fall 2022 and Fall 2023 are annual update years). This is the second "Update Year" in which you will need to reflect on aspects of your own PAR submissions and the overarching campus trends from the Fall 2021 Comprehensive PAR and Fall 2022 Update PAR Years. Please collaborate with your dean/manager to receive feedback before entering your PAR responses here (and for resource requests, enter into Cognito).

Thanks,

The Program and Area Review Committee

*Please remember that Qualtrics is not a collaboration tool and partial responses can get lost. You should only enter your PAR into Qualtrics once you have finished the steps of collaborating with your program/area teammates and/or your Dean/manager and have a final draft.

Is your PAR ready to submit as a final draft?

	Yes
\bigcirc	No

Q2. Background Information

Q3. Name of Your Program/Discipline/Area/Service, Division, and Organization Unit

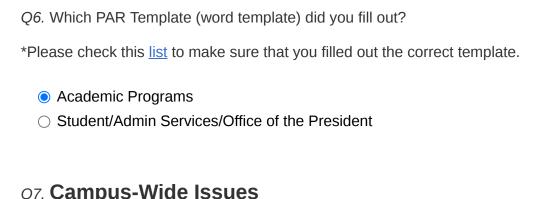

Name of Program, Discipline, Area or Service	Dental Hygiene →
Division	Health, Kinesiology and Athletics 🕶
Organizational Unit	Academic Services ▼

Q4. If you selected "Not Listed" in the previous question, please enter your Program/Discipline/Area/Service name here

This question was not displayed to the respondent.

Q5. Name(s) of the person or people who contributed to this review:

Julie Coan

Q7. Campus-Wide Issues

Q38. Reflections on Annual Priority Progress in Academic Year 2022-23

Context: The Planning and Resource Allocation Committee (PRAC) establishes Annual Planning **Priorities** based on collegewide trends in PAR responses, experiences from grant and categorical fund managers, and issues raised in PRAC. In brief, the planning priorities for 2022-2023 were to:

- 1) Develop support networks to link students to Pathway Success Team members and services:
- Expand Chabot's connection to the external community to expand students' access to basic needs support and work-based learning opportunities and careers; and
- 3) Improve student interfaces (e.g., marketing, website redesign, virtual ways for students to access services).

Question: What progress did you see in any of these annual planning priorities?

2	2) Students within the dental hygiene program are able to attend offsite work experience, preparing them for entry into the profession of dental hygiene

Q39. Question: If you could advise college decision makers how to make better or more efficient progress on any of these annual planning priorities, what would you say?

Recommendation to create a student health center which includes a greater access to outside resources such as Tiburcio Vasquez Health Centers, improved referral services, including greater visibility to dental hygiene services (on campus), medical assistants and the nursing community on campus. An integrated healthcare center would support both student health and student learning opportunities.

Q8. Context: For 2023-24, PRAC put forward seven recommendations for consideration based on their analysis of the Fall 2022 Program and Area Synthesis Statement and the Mission Critical Priorities in the Ed Master Plan, experiences from grant and categorical fund managers, and the 2022-23 President's College Planning Initiatives.

Question: How important do you believe it is to address the following issues to support Chabot in carrying out our mission? Please drag the response options and order them from most important (1) to least important (7).

Build an accountability structure for recommendations that have college-wide scope to ensure continuous improvement

	Dedicate resources for implementation impending mandates, such as Cal-GETC, AB705/1705, etc.
_	Scale successful practices from grants, categorical endeavors, and learning communities
-	Affirm and improve program and area review resource requests to reduce inappropriate or duplicate resource requests
_	Improve fluency with business and HR processes
	Access and implement post-pandemic college policies and procedures to respond to the needs of students and employees
	. Question: If you believe there is an important issue to address to carry out the college mission that is of mentioned in the previous list, please describe below (optional).
N	N/A
Q1	o. Reflections on Goals Established in Fall 2021 PAR
pro	1. Context: In Fall 2021 PAR (the last comprehensive PAR year), after reflecting on data, you established ogram/area goals to support continuous program improvement and/or the college mission. This readsheet lists the goals that you first established in Fall 2021 and updated or confirmed in Fall 2022.
	estion: Keeping in mind, you only have one year left in this PAR cycle to accomplish these goals, please e a look at your goals to determine:
(All goals are still relevant and nothing needs to be changed or added.
(All goals are still relevant, but I would like to add an additional goal. (Please fill in your new goal, so we can update the spreadsheet.)
(Some goals are relevant and some need to be changed. (Please explain below, so we can update your goals in the spreadsheet.)
	Equipment: I have removed the Anatomage Table from the PAR report. I don't feel this is necessary at this time.
	Supplies and Software: We acquired the Consult Pro software over the summer, and are in the process of implementing and updating the program.

O None of our goals are still relevant. We need to update all of them. (Please provide us with your new goals, so we can update your goals in the spreadsheet.)

goals	Context: You established goals in Fall 2021 and presumably are well underway in working on these s. You will be asked to report on the outcomes of these goals in the first year (Fall 2024) of the next prehensive PAR cycle (PARs submitted in Fall 2024-Fall 2026).
Que	stion. What are the statuses of your program stated's goals right how:
\bigcirc	All goals are achieved.
\circ	Some goals are achieved and some are in progress.
\circ	All goals are in progress.
	Some goals are in progress and some are not started.
\circ	No goals are started because (please explain in text box below).
	Context: To assess how well you are doing with respect to meeting your program's/area's goals, you ded and/or updated expected goal outputs and outcomes in your Fall 2021 and Fall 2022 PARs.
migh degre Rese asse hybri asse reque	outs" are direct short-term results like # of students served, workshops held, etc. Longer-term goals t also have expected <i>outcomes</i> . "Outcomes" are longer-term results, like course success rates or ees earned. Goals are often measured by whether "outputs" or "outcomes" are achieved. The Office of earch, Planning and Institutional Effectiveness (ORPIE) posts a variety of data for programs/areas to see goal "outcomes": enrollment management , success rates of online vs d vs face-face-classes, degree and certificate awards, and more. To request additional data for goal essment, please fill out a research request form by Friday September 22, 2023. ORPIE will process ests in the order received. ORPIE will let you know whether they have the requested data and/or how program/area could collect your own.
-	stion: So far, what is going well regarding completing your program's/area's goals? Please include ctions on achievement of outputs or outcomes.
cor	al 1 – Dental Hygiene Simulation Lab: Has been achieved. This lab has been very beneficial for the hands-on learning of our students. Each unit stains for stations which mimics a clinical setting, allowing students to safely learn instrumentation skills prior to working on each other and patients. In this environment has allowed students to enter into the clinical arena with greater confidence and preparedness.

Q37. Question: What are some challenges regarding completing your program's/area's goals? Please	è
include reflections on challenges with producing outputs or outcomes so far.	

Goal 2 & 3 are combined, within the recommendation of creating a Chabot Student Health Center. These goals would impact the footprint of the Chabot Campus. However, they would also impact the access to healthcare services for our students, and potentially the community. Combining health care programs allows for greater inter-collaboration between disciplines. It also has the potential to increase inter-collaborations with outside health care entities such as Tiburcio Vasquez Health Centers, for both health and oral health care. Cost and planning are major factors limiting the development of a health center for the college.

Q14. Student Learning Outcomes (SLOs) and Program Learning Outcomes (PLOs)

SLO bout ttee m

Q41. Context: Assessment for SLOs and PLOs happens at varying times of year on a five-year cycle and PLO assessments are submitted in CurricUNET/META. Please take a look at the SLO Completion Report* and the PLO Completion Report* to answer the questions below. If you have any questions a how to find your prior assessments, please email the co-chairs of Outcomes and Assessment Comm Julie Coan (jcoan@chabotcollege.edu) and Safiyyah Forbes (sforbes@chabotcollege.edu), or the curriculus specialist Meray Aghyarian (maghyarian@Chabotcollege.edu).
Q15. Question: Is the assessment for all SLOs in your program up to date?
○ Yes
 Almost. We just need to assess SLOs in 1-3 courses. (Please fill in courses due for SLO assessments and the date you plan to complete those.) Yes, all courses due for assessment were completed.
No. We have to assess SLOs in 4 or more courses. (Please fill in courses in need of SLO assessments and the date you plan to complete those.)
O16 Question: Has your program completed a DLO accessment in the last five years?

Q16. **Question:** Has your program completed a PLO assessment in the last five years?

Yes

No. Please explain why and include when you will complete the updated PLO assessment.	
Q17. Context: Chabot strives to continually improve how we serve students and the community (assessment and continuous improvement are also requirements for accreditation). In your SLO assessments in CurricUNET/META, you are asked: "Based on assessment results, what actions might your discipline take to improve student learning?" Similarly, in the prior PLO assessments you were asked to describe "recommended changes/actions," and in the updated PLO assessments you are asked, "What are you planning to start doing, stop doing or change in order to continuously improve your program?" In the comprehensive PAR year (not this update year), you will be asked to report back on how your actions to improve SLOs and PLOs impacted student learning. In this update year, we are simply reminding you that your actions and plans to improve student learning, based on SLO/PLO assessment results, should be underway.	
If you want to see how you responded to these SLO/PLO continuous improvement questions: • Go to the <u>SLO Completion Report</u> and the <u>PLO Completion Report</u> . • Look up your program by division, subject, and program name. There will be a hyperlinked "x" in the column for the year in which you submitted your SLO/PLO assessments. • Click on the "x" and you can look up what you submitted as plans for SLO and PLO continual improvements (i.e., your responses to the questions on actions to improve student learning and continuously improve your program).	
If you have any questions about how to find your prior assessments, please email the curriculum specialist Meray Aghyarian (maghyarian@chabotcollege.edu).	
Question: Please check one of the following boxes to describe how your discipline is doing with regards to plans/actions for improving student learning based on SLO/PLO assessment data.	
Great! We have made significant progress in implementing our plans to improve student learning and our program.	
Good. We have started some actions, but we still have work to do.	
Not so good. We haven't started yet. Please fill in your plans to address below. (Example fictitious response: "Based on our SLO assessment in Fall 2021, we decided we wanted to build lessons specifically geared towards boosting students' scientific writing skills. But with Covid-19 hitting and having to constantly pivot with online and face-to-face modalities, we just haven't had time to work on the lesson plan. In our discipline meeting this December, we will invite all full-time faculty, part-time faculty and our Dean and we will put together a team to work on the lesson plan.")	

Q19. **Context:** At least two Service Area Outcomes (SAOs) should be assessed once every five years. Please take a look at the SAO 2022 Assessment Update Spreadsheet to answer the following.

Ouestion: Please check the statement that best describes your program's/area's SAO assessments.

This question was not displayed to the respondent.

Q20. From Goals and SLO/PLO/SAO Continuous Improvement Plans to Resource Requests

Q21. **Context:** The basis for Chabot's resource allocation process is grounded in reflections on: 1) PAR goals, 2) plans for improving student learning that are grounded in SLO and PLO assessment results, and 3) SAO assessment results. Please consider what augmentations or new resources might be needed to achieve: 1) your PAR goals, 2) plans to improve student learning, and/or 3) reach SAOs.

Question: Which of your PAR goals, plans for improving student learning, and/or plans for reaching SAOs will need augmented or new resources?

**Note you will still need to enter resource requests into Cognito after submitting your PAR on Qualtrics.

I will be reviewing and definitely updated our needs within the program. As last year was my first year as Program Director, I had not yet established goals which were beneficial and achievable. I hope to do that this year. Yes, funding will be required, to complete technological access to the simulation lab units, as well as the addition of mobile carts for our radiology lab, to allow greater access for out students to provide direct patient care.

Q22. Optional: Campus-wide Reflection on Current Issues

This optional section of the update-year PAR contains question(s) on current issues impacting our campus.

Q40. **Question:** Though slowly improving, Chabot's enrollment is far from reaching pre-COVID-pandemic levels. This impacts our funding. What are your thoughts on how we should respond? (e.g., ensuring smooth process for students from application to enrollment, mass retention campaign, mass marketing, planning for a smaller college, providing in-person/hybrid/hyflex course instruction and service delivery, other?)

In regards to the application process, I did sign-up for a course this semester. I found the process to be very long and complicated. I believe it could be daunting for those people who are not familiar with online application processes.

Q43. Question: As you know, President Cooks assumed the role of Chabot's 10th College President on August 1, 2023. If your program/area could tell President Cooks one thing he needs to know about your program/area, what would it be?

The Chabot College Dental Hygiene program offers opportunities not only to the students themselves, but to the college and the community. Dental Hygiene is unique as the services provided benefit all who attend as patients, while students gain a valuable hands-on experience. The profession of dental hygiene is one of oral health promotion and disease prevention. Our clinic is considered part of the safety-net in oral health. In addition, students who graduate from our program can experience financial independence, as Dental hygiene is one of the top professions listed in the current work force.

Q24. Thank you for completing the annual update questions for the Fall 2023 PAR! **But WAIT!! You might not be quite done yet...**

Resource Requests: Have you completed all your resource requests? If not, go to the <u>Resource Requests</u> Form to add or update requests for: contracts and services, equipment; facilities; human resources; professional development, travel and conferences; supplies and software; or technology.
