

Theresa Pedrosa  
Personal Statement

I want to run for President or Vice President of Community Relation of Student Senate. The reason is I have the knowledge and experience and dedication being Student Senate and being the voice for the students. I will do everything in my power to advocate to provide support the rights, freedoms, and responsibilities of Chabot students. I will leave knowing that I made a difference here.

My major is Social Services for Human Resources. All my life I have help people and volunteer. Since I have been at Chabot my passion has always been students making sure they come first. I have worked at Chabot for about twenty years. I worked at EOPS for 13 years taking care of students needs. I work at Student on Line Services and was the first one to make Student ID and help students register for classes and help them with Financial Aid applications. Work at Students Life Office help students fill out applications for joining clubs and helped out at the Flea Market and volunteer for the Food Pantry for 3 years to make sure student do not go hungry.

The three adjectives that describe me is one I love to volunteer and get involved in my community at Chabot. Second is I am very ambitious about setting goals for myself and make I follow through. Next is patience which I have a lot of. When I set my mind to something and its doesn't worked I don't give up instead I keep trying until it gets done.

My goal has a member of Student Senate is to make sure students have affordable transportation to and from Chabot. Affordable books or no cost at all. Make sure that our students have food and do not go hungry. And finally have all the resources available when they need help. I want to make sure that when students come to Chabot that do not have to worry how they are going to get here, money for foods and be able to afford books.

I am President of Able-Disable Club, Vice-President of (CIN) Change It Now and

I am now President of Student Senate, I also was Vice-President, Communication Director, Events Coordinator of Student Senate.

I am very dedicated to my students and I want to make Chabot a better place for them while they are here achieving their goals and help them graduate.
